

- Hence, one line of magnetic field of earth is traced.

(a) Plotting a field line with a compass needle

(b) Lines of uniform magnetic field of earth

Starting from a different point, the process is repeated and another line of magnetic field is traced out. This way a few several lines of magnetic field can be traced out. Every line is required to be labelled with the help of an arrow from the south pole of the needle towards the north pole to represent the direction of the magnetic field. The figure below depicts several magnetic lines that are obtained this way.

19. Can two magnetic field lines intersect each other? Give reason to your answer.

Solution:

No, two magnetic field lines do not intersect each other. If they would intersect, there would be two directions of the field at the specific point which is not possible.

20. In figure, draw at least two magnetic field lines between the two magnets.

Solution:

- (a) Since the north poles of both the magnets are facing each other, they repel. Hence the magnetic field lines would look like this
