**Agustinus Wibowo**

## **My First Chinese Words Teacher Parents Guide Simplified Chinese:**

*Resources in Education*, 1997      **Chinese Students' Higher Achievement in Mathematics** Dacheng

Zhao, 2016-02-23 This book shares insights into the achievement gap in mathematics between East Asian and Western countries and the ways to improve students' mathematics achievements. Especially, it highlights the importance of integrating case studies with large-scale international comparative studies in general and comparative studies of mathematics education in particular. This book is a must-read for mathematics teachers, mathematics educators, educational researchers, education administrators, curriculum developers, assessment designers, and student teachers who are interested in mathematics education and how to improve students' mathematics achievements.      *TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy* Crawford, Jenifer, Filback, Robert A., 2021-09-17 The field of TESOL encompasses English teachers who teach English as an additional language in English-dominant countries and those teachers who teach English as a foreign language in countries where a language other than English is the official language. This range of educators teaches English to children, adolescents, and adults in primary, secondary, post-secondary, popular education, and language academies or tutoring centers. The diversity of learners and contexts within the TESOL field presents a unique opportunity for educators to address varied educational and societal needs. This opportunity calls for TESOL educators who can support the whole learner in a range of contexts for the greater social good. There is an urgent need for readily reproducible and step-by-step research-based practices and current standards in TESOL that bridge the gap between critical scholarship and equitable teaching practices. This book would serve as a critical addition to current literature in TESOL. *TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy* is an essential reference that provides practical and equitable step-by-step guides for TESOL educators through the current best practices and methods for effective and equity-minded teaching, critical inquiry, and transformative advocacy. This book is of particular value as it bridges theories to practices with a critical look at racial and social justice in English language teaching, which will lead to the integration of social justice-focused practice across the new curriculum. Covering topics such as integrated language instruction, equity, and inclusivity, critical consciousness, and online learning, this text is essential for in-service and pre-service TESOL educators, education students, researchers, administrators, teacher educators, and academicians.      **Ground Zero (Edisi Bahasa Inggris 'Titik Nol')** Agustinus Wibowo, 2015-11-10 After ten years wandering the world, Agustinus Wibowo has finally come home. He is now forced to face a reality that he has always feared. His mother is on the brink of death as cancer ravages her body. Not unlike Scherazade who reads through one thousand and one tales over as many nights, the traveller recounts his journey to his ailing mother who has barely ever left their little village in Java, Indonesia. He talks about the illusory homeland of China, the holy Tibet, the spiritual Nepal, the dramatic India, the struggling Pakistan, and the surviving Afghanistan. And along with these stories, his mother finally finds a voice to recount her own life journey. Fragments of their lives come together, two distinctive roads spanning time and distance.

only to converge to become a heart wrenching tale of love and survival Relating his travels to his dying mother Wibowo beautifully captures the bittersweet experience of solo travel The excitement of discovery the shadow of a changeling identity and the low grade thrum of the road not taken combine to produce this lyrical journey through time and place Elizabeth Pisani author of *Indonesia Etc Exploring the Improbable Nation*      **Literacy and Multimodality Across Global Sites**

Maureen Kendrick,2016-03-17 Over the past three decades our conceptualizations of literacy and what it means to be literate have expanded to include recognition that there is a qualitative difference in how we communicate through modalities such as the visual audio spatial and linguistic and that different modes are combined in complex ways to make meaning The field of multimodality is concerned with how human beings use different modes of communication to represent or make meaning in the world Despite the rapid growth of international research in this area accounts of a broader range of global sites particularly economically under resourced and culturally diverse contexts such as Sub Saharan Africa remain under researched and under represented in the literature This book contextualizes a range of literacies including health literacies community literacies family literacies and multilingual literacies within broader modes of communication most specifically play and the visual The claim is that powerful pedagogies methodologies and theories can be constructed by taking a more detailed look at multimodal meaning making in diverse contexts By describing and analyzing multimodal practices and texts across a diverse range of contexts the book highlights different constructs issues and emerging questions dealing with the study of literacies and multimodality      *The Missionary Chronicle* ,1846      *A Beginner's Guide to Meditation* Rod Meade
