England, Literary and Social, from a German Point of View Julius Rodenberg, 1875 *The View from the Ground* Martha Gellhorn, 2014-12-09 An anthology spanning six decades of on the scene journalism from one of the most eloquent witnesses of the twentieth century Bill Buford Granta For nearly sixty years Martha Gellhorn traveled the globe to report on the tumult and extremity of life in the twentieth century *The View from the Ground* as Gellhorn explains is a selection of articles written during six decades peace time reporting That is to say the countries in the background were at peace at the moment of writing not that there was peace on earth Included here are accounts of America during the Depression Israel and Palestine in the 1950s post Franco Spain protests at the White House domestic life in Africa and Gellhorn's return to Cuba after a forty one year absence among many other topics Informed by the horrors of fascism in Spain and Germany the modern terror in Central America and by the courage of those who stand up to the thugs both in an out of government *The View from the Ground* is a singular act of testimony that like its companion volume *The Face of War* is an eloquent unforgettable history of a chaotic century San Francisco Chronicle **Found in Translation** Laura Rademaker, 2018-04-30 *Found in Translation* is a rich account of language and shifting cross cultural relations on a Christian mission in northern Australia during the mid twentieth century It explores how translation shaped interactions between missionaries and the Anindilyakwa speaking people of the Groote Eylandt archipelago and how each group used language to influence evade or engage with the other in a series of selective mistranslations In particular this work traces the Angurugu mission from its establishment by the Church Missionary Society in 1943 through Australia's era of assimilation policy in the 1950s and 1960s to the introduction of a self determination policy and bilingual education in 1973 While translation has typically been an instrument of colonization this book shows that the ambiguities it creates have given Indigenous people opportunities to reinterpret colonization's position in their lives Laura Rademaker combines oral history interviews with careful archival research and innovative interdisciplinary findings to present a fresh cross cultural perspective on Angurugu mission life Exploring spoken language and sound the translation of Christian scripture and songs the imposition of English literacy and Aboriginal singing traditions she reveals the complexities of the encounters between the missionaries and Aboriginal people in a subtle and sophisticated analysis Rademaker uses language as a lens delving into issues of identity and the competition to name own and control In its efforts to shape the Anindilyakwa people's beliefs the Church Missionary Society utilized language both by teaching English and by translating Biblical texts into the native tongue Yet missionaries relied heavily on Anindilyakwa interpreters whose varied translation styles and choices resulted in an unforeseen Indigenous impact on how the mission's messages were received From Groote Eylandt and the peculiarities of the Australian settler colonial context *Found in Translation* broadens its scope to cast light on themes common throughout Pacific mission history such as assimilation policies cultural exchanges and the phenomenon of colonization itself This book will appeal to Indigenous studies

The Indexical Point of View Vojislav Bozickovic,2020-10-22 This book argues that there is a common cognitive mechanism underlying all indexical thoughts in spite of their seeming diversity Indexical thoughts are mental representations such as beliefs and desires They represent items from a thinker s point of view or her cognitive perspective We typically express them by means of sentences containing linguistic expressions such as this F or that F adverbs like here now and today and the personal pronoun I While generally agreeing that representing the world from a thinker s cognitive perspective is a key feature of indexical thoughts philosophers disagree as to whether a thinker s cognitive perspective can be captured and rationalized by semantic content and if so what kind of content this is This book surveys competing views and then advances its own positive account Ultimately it argues that a thinker s cognitive perspective or her indexical point of view is to be explained in terms of the content that is believed and asserted as the only kind of content that there is which thereby serves as the bearer of cognitive significance The Indexical Point of View will be of interest to philosophers of mind and language linguists and cognitive scientists **The North American Sylva; Or, A Description of the Forest of the United States, Canada and Nova Scotia** François André Michaux,1853 *The North American Sylva, Or, A Description of the Forest Trees of the United States, Canada and Nova Scotia* François André Michaux,1855 *The North American Sylva,*
