Eddie Baker,2018-08-23 More complex and imposing than any other vehicle in the British emergency services the fire engine
has a long and interesting history The earliest water pumps had been developed by the eighteenth century basic manual
pumps that had to be hauled around by people or horses and were often only used on fire insured premises In the nineteenth
and twentieth centuries horse drawn steam powered fire engines and eventually motorised fire engines came to revolutionise
firefighting offering far greater versatility and the brigades came to be run by the municipalities In this beautifully illustrated
introduction Eddie Baker charts the history of fire engines and their variants and the increasingly complex equipment they
have carried such as high rise ladders and high pressure hoses He also explains the wider history of the fire service and how
the engines have been shaped by its needs and most importantly those of the firefighters themselves
