Fabrication Dune Star:

Économie du star-system (L') Françoise Benhamou, 2002-04 Les stars ont envahi tous les domaines de la culture du cinéma la peinture de la musique au livre et au spectacle vivant Pourquoi le succès semble-t-il de moins en moins s'expliquer par le talent Sur les marchés culturels de plus en plus mondialisés où les produits déclinent de plus en plus des routines centées où les structures de production se concentrent pour amortir les coûts de la fabrication des stars quel espace reste-t-il pour la création véritable et l'innovation Nos engouements sont-ils condamnés à se tourner fatalement vers des succès annoncés grands coups de campagnes promotionnelles En matière de politique culturelle la défensive de l'exception française suffit-elle pour pallier un phénomène devenu ce point familier qu'on le pense inévitable la généralisation tous azimuts du star system

conomiste Françoise Benhamou est professeur à l'université de Rouen et chercheur au MATISSE à l'université Paris I Elle a notamment publié *Économie de la culture*

Entre l'oeil et la réalité Julien Achemchame, 2010 Etrange bizarre décalé contre courant les qualificatifs abondent pour désigner le cinéma de Lynch et plus particulièrement cet objet singulier et fractaire une seule interprétation qu'est Mulholland Drive oeuvre tout autant fascinante que déroutante chappant la logique du spectateur et sa capacité d'ordonner l'action Pour expliquer cette nature quelle hypothèse soulever Quelle voie interprétative suivre Pour Julien Achemchame il s'agit avant tout d'appréhender Mulholland Drive comme récit portant essentiellement sur le cinéma sur la spectature sur le fait de regarder et de recevoir un film De là une double approche de cet ovni cinématographique perçue à la fois comme synthèse des motifs et thèmes lynchien et dialogue avec les oeuvres et genres filmiques qui ont marqué l'histoire hollywoodienne Procédant par un largissement des perspectives quant au sens donner Mulholland Drive se dirigeant vers une approche intertextuelle de plus en plus importante et fertile Entre l'oeil et la réalité le lieu du cinéma relève de l'exégèse lynchienne sans nécessairement tomber dans des discours par trop alambiqués ou inutilement intellectualistes Cernant cet objet artistique avant tout comme discours sur le cinéma son auteur labore ainsi un cheminement interprétatif qui dérivera la simplicité qu'il postule sur la densité de l'œuvre du réalisateur Une référence certaine pour comprendre un cinaste phare

Mémoires d'une petite culotte Christian Bosmans, 2006

La figure ouvrière en

Afrique du Sud Judith Hayem, 2008 Pendant l'apartheid les usines furent l'un des lieux où se confrontaient avec violence la discrimination et la ségrégation raciales Après la disparition du régime en quels termes les ouvriers sud-africains longtemps conçus comme l'avant-garde de la lutte de libération nationale se prononcent-ils sur la situation politique de l'usine et dans le pays Pour le savoir l'auteur a mené deux enquêtes d'usine à Durban en 1997 et à Port Elizabeth en 1999 Elle montre ainsi

comment certains chefs d'entreprises ont dès les années 1970-80 entrepris de contourner les préceptes de l'apartheid tout en s'inscrivant dans un capitalisme de ségrégation. Puis en examinant ce que les ouvriers disent des relations de travail entre ouvriers et avec les patrons de la promotion et de la qualification des primes et des salaires ou encore de la discrimination positive et du rôle des ouvriers dans le pays et dans l'entreprise elle identifie ce qui fonde leur engagement politique pour la reconstruction de la nouvelle Afrique du Sud. L'usine merge comme l'un des lieux du sentiment national dans la séquence 1994-1999. Ce livre montre que la sortie de l'apartheid n'est pas un processus de transition économique ni un simple processus institutionnel ni même un miracle. Elle est le fruit d'une rupture politique profonde portée non seulement par le nouveau gouvernement mais aussi dans des modalités propres et originales par les ouvriers. La figure ouvrière ainsi mise au jour souligne la singularité de ce qui se joue en Afrique du Sud et manifeste tout l'intérêt d'étudier les formes de pensée ouvrières contemporaines pour autant que le chercheur parvienne renouveler en les dépassant les anciens cadres intellectuels de référence sur ce thème.

Contemporary African Cultural Productions V.Y. Mudimbe, 2013-01-31. All over Africa an explosion in cultural productions of various genres is in evidence. Whether in relation to music, song and dance, drama, poetry, film, documentaries, photography, cartoons, fine arts, novels and short stories, essays and autobiography, the continent is experiencing a robust outpouring of creative power that is as remarkable for its originality as its all-round diversity. Beginning from the late 1970s and early 1980s, the African continent has experienced the longest and deepest economic crises than at any other time since the period after the Second World War. Interestingly, however, while practically every indicator of economic development was declining in nominal and/or real terms for most aspects of the continent, cultural productions were on the increase. Out of adversity, the creative genius of the African produced cultural forms that at once spoke to crises and sought to transcend them. The current climate of cultural pluralism that has been produced in no small part by globalization has not been accompanied by an adequate pluralism of ideas on what culture is and/or should be, nor informed by an equal claim to the production of the cultural, packaged or not. Globalization has seen to movement and mixture, contact and linkage, interaction and exchange where cultural flows of capital, people, commodities, images and ideologies have meant that the globe has become a space with new asymmetries for an increasing intertwinement of the lives of people and consequently of a greater blurring of normative definitions as well as a place for redefinition, imagined and real. As this book *Contemporary African Cultural Productions* has done research into African culture and cultural productions that derive from it, allows us among other things to enquire into definitions, explore historical dimensions and interrogate the political dimensions to presentation and representation. The book therefore offers us an intervention that goes beyond the normative literary and cultural studies main foci of race, difference and identity notions which, while important in themselves, might without the necessary historicizing and interrogating result in a discourse that rather reinscribes the very patterns that necessitate writing against. This book is an invaluable compendium to scholars, researchers, teachers, students.
