Asia-Pacific Raymond Frederick Watters,T. G. McGee,Ginny Sullivan,1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many new geographies are being created or reconstructed At the same time the local global dialectic whereby local forces react to negotiate with resist or capitulate to global forces is examined Part I analyses globalisation and the emergence of sub global regions Part II the processes of change in Asia Pacific and Part III the national responses to globalisation Part IV addresses local reactions to global forces resistance negotiations or capitulation Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue

This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants. For the time being, these forces seem to be in the ascendant. **Pulp & Paper**, 1959 **Gender in Agriculture** Agnes R. Quisumbing, Ruth Meinzen-Dick, Terri L. Raney, André Croppenstedt, Julia A. Behrman, Amber Peterman, 2014-04-29 The Food and Agriculture Organization of the United Nations FAO produced a 2011 report on women in agriculture with a clear and urgent message: agriculture underperforms because half of all farmers are women who lack equal access to the resources and opportunities they need to be more productive. This book builds on the report's conclusions by providing for a non-specialist audience a compendium of what we know now about gender gaps in agriculture.
