Trapped by History Darryl Cronin, 2021-04-15 The Australian nation has reached an impasse in Indigenous policy and practice and fresh strategies and perspectives are required Trapped by History highlights a fundamental issue that the Australian nation must confront to develop a genuine relationship with Indigenous Australians The existing relationship between Indigenous people and the Australian state was constructed on the myth of an empty land terra nullius Interactions with Indigenous people have been constrained by eighteenth century assumptions and beliefs that Indigenous people did not have organised societies had neither land ownership nor a recognisable form of sovereignty and that they were savage but could be civilized through the erasure of their culture These incorrect assumptions and beliefs are the foundation of the legal constitutional and political treatment of Indigenous Australians over the course of the country's history They remain ingrained in governmental institutions Indigenous policy making judicial decision making and contemporary public attitudes about Indigenous people Trapped by History shines new light upon historical and contemporary examples where Indigenous people have attempted to engage and dialogue with state and federal governments These governments have responded by trying to suppress and discredit Indigenous rights culture and identities and impose assimilationist policies In doing so they have rejected or ignored Indigenous attempts at dialogue and partnership Other settler countries such as New Zealand Canada and the United States of America have all negotiated treaties with Indigenous people and have developed constitutional ways of engaging cross culturally In Australia the limited recognition that Indigenous people have achieved to date shows that the state is unable to resolve long standing issues with Indigenous people Movement beyond the current colonial relationship with Indigenous Australians requires a genuine dialogue to not only examine the legal and intellectual framework that constrains Indigenous recognition but to create new foundations for a renewed relationship based on intercultural negotiation mutual respect sharing and mutual responsibility This must involve building a shared understanding around addressing past injustices and creating a shared vision for how Indigenous people and other Australians will associate politically in the future The (Mis)Representation of Queer Lives in True Crime Abbie E. Goldberg, Danielle C.

Slakoff, Carrie L. Buist, 2023-08-25 This book examines the representation and misrepresentation of queer people in true crime addressing their status as both victims and perpetrators in actual crime as well as how the media portrays them The chapters apply an intersectional perspective in examining criminal cases involving LGBTQ people as well as the true crime media content surrounding the cases The book illuminates how sexual orientation gender race and other social locations impact the treatment of queer people in the criminal legal system and the mass media Each chapter describes one or more high profile criminal cases involving queer people e.g. the murders of Brandon Teena and Kitty Genovese serial killer Aileen Wuornos the Pulse nightclub mass shooting The authors examine how the cases are portrayed in the media via news films podcasts documentaries books social media and more Each chapter discusses not only what is visible or emphasized by the

media but also what is invisible in the accounting or societal focus surrounding the case Lesser known but similar cases are used in the book to call attention to how race gender sexuality sexual orientation social class and or other features influence the dominant narrative surrounding these cases Each chapter addresses teachable moments from each case and its coverage leaving readers with several considerations to take with them into the future The book also provides media resources and supplemental materials so that curious readers including scholars students content creators and advocates can examine the cases and media content further The book will appeal to scholars and students of criminology psychology sociology law media studies sexuality studies and cultural studies and people with an interest in true crime *Report Cards* Wade H.

Morris,2023-09-26 This book tells the story of American education by examining this unique element of student life The author shows the evolution of how teachers students parents and administrators responded to report cards Report cards he shows were more than just a means by which a school documented each student s deportment academic standing and attendance They were a tool of control a microcosm for the changing power dynamics between teachers parents and students

Securitization of the Umbrella Movement in Hong Kong Cora Y.T. Hui,2019-07-05 In recent years the city many hoped would help democratize China has instead become a research setting in which to study China s increasing intolerance of dissent Since Hong Kong s return to Chinese sovereignty in 1997 China s treatment of Hong Kong could be divided into three stages non intervention intervention and securitization If the July 1 march in 2003 is a watershed that marked Beijing s change from non intervention to intervention this book suggests that the Umbrella Movement in 2014 is another watershed that marked Beijing s change from intervention to securitization This book is a theoretically driven case study of the Umbrella Movement a massive sit in that paralyzed key business and retail districts for 79 days in Hong Kong in 2014 Many Hongkongers believe that they have the right to a fair election of the chief executive and Beijing s insistence on vetting candidates prompted the outbreak of the Umbrella Movement Drawing insights from the securitization theory and fear appeal literature the book proposes the framework of security appeal It argues that the outbreak of the Umbrella Movement resulted from a premature use of hard repression that is before the government convinced the general public that the Umbrella Movement was a threat The eventual successful securitization entails a general acceptance of the threatening nature of the Umbrella Movement and agreement with its crackdown This book concludes that one of the consequences of the securitization of the Umbrella Movement is Beijing s eventual switch to the policy of patriotocracy a system that allocates power and resources based on one s professed patriotism in lieu of One Country Two Systems The policy implications and theoretical and methodological contributions of this book will be of interest to scholars and students of security studies Chinese politics and various social science disciplines including political science psychology criminology and sociology

The Commercial and Financial Chronicle ,1907 **Report to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission,2013 Tuesday Night Massacre

Marc C. Johnson, 2021-02-25 While political history has plenty to say about the impact of Ronald Reagan's election to the presidency in 1980, four Senate races that same year have garnered far less attention despite their similarly profound political effect. Tuesday Night Massacre looks at those races. In examining the defeat in 1980 of Idaho's Frank Church, South Dakota's George McGovern, John Culver of Iowa, and Birch Bayh of Indiana, Marc C. Johnson tells the story of the beginnings of the divisive partisanship that has become a constant feature of American politics. The turnover of these seats not only allowed Republicans to gain control of the Senate for the first time since 1954 but also fundamentally altered the conduct of American politics. The incumbents were politicians of national reputation who often worked with members of the other party to accomplish significant legislative objectives, but they were, Johnson suggests, unprepared and ill-equipped to counter nakedly negative emotional appeals to the politically passive voter. Such was the campaign of the National Conservative Political Action Committee (NCPAC), the organization founded by several young conservative political activists who targeted these four senators for defeat. Johnson describes how such groups amassing a great amount of money could make outrageous and devastating claims about incumbents: baby killers who were soft on communism, for example, on behalf of a candidate who remained above the fray. Among the key players in this sordid drama are NCPAC chairman Terry Dolan, Washington lobbyist Charles Black, a top GOP advisor to several presidential campaigns and one-time business partner of Paul Manafort and Roger Stone, self-described dirty trickster for Richard Nixon and confidant of Donald Trump. Connecting the dots between the Goldwater era of the 1960s and the ascent of Trump, Tuesday Night Massacre charts the radicalization of the Republican Party and the rise of the independent expenditure campaign with its divisive negative techniques, a change that has deeply and perhaps permanently warped the culture of bipartisanship that once prevailed in American politics.
