Friis, Thomas Sellers, 2020-03-16 Epidemiology for Public Health Practice is a best selling text offering comprehensive coverage of all the major topics in introductory epidemiology and alignment to the core competencies in epidemiology for graduate and undergraduate courses With extensive content on the heart of epidemiology from study designs to descriptive epidemiology and quantitative measures this reader friendly text is accessible and interesting to students in introductory health disciplines A unique focus is given to real world applications of epidemiology and the development of skills that students can apply in subsequent course work and in the field New chapter on epidemiology and policy Increased emphasis on health disparities genetic epidemiology and current epidemics e g the opioid epidemic cannabis misuse and gun violence Coverage of data acquisition big data wearable technology for collecting health data climate change and more Unique chapters on psychosocial epidemiology environmental and occupation health molecular and genetic epidemiology and career options Refreshed examples updated tables and figures throughout the text Each new print copy includes Navigate 2 eBook Access enabling you to read your digital textbook online or offline on computers tablets and mobile devices Graduate and undergraduate epidemiology courses in public health nursing and medical schools Designed for classroom online and or intensive seminars and special study courses 2021 750 pages *Introduction to Public Health for Chiropractors* Michael Haneline, William C. Meeker, 2010-10-25 Public health is of concern to practicing chiropractors as well as chiropractic students The vast majority of chiropractors utilize public health concepts every day as an integral part of patient care For instance they give advice on risk factors that should be avoided and protective factors to be added by their patients to enhance healing and prevent illness Public health is also part of the curriculum at all chiropractic colleges and is tested by the National Board No public health textbooks are available that are specifically designed for the chiropractor Consequently college instructors are forced to make do with class notes and generic texts that do not address the specific issues relevant to

chiropractic This book will not only be of interest to chiropractic students but also practicing chiropractors because it will provide information they can utilize to provide better care by positively intervening with their patients and their communities regarding public health matters **Introduction to Epidemiologic Research Methods in Public Health Practice** Susan Bailey, Deepa Handu, 2013 Tailored for multiple purposes including learning about and being equipped to evaluate research studies conducting thesis dissertation capstone projects and publishing scientific results Epidemiologic Research Methods in Public Health Practice covers the full breadth of epidemiologic study designs and topics case case control and cohort studies
