Educational Research and the Question(s) of Time David R. Cole, Mehri Mirzaei Rafe, Gui Ying Annie Yang-Heim, 2024-06-24 This book fully explores the question s of time in educational research and achieves the acceleration and merging of inquiry with action to understand change and implement these findings through practice It deals with the philosophy of education higher education schooling the curriculum time displacement technology the environment and policy This book focuses on time revolution s It explores new ways of thinking about time that question a linear arrow in time and sets into motion an educational research agenda to extract revolutions of time Furthermore this book figures the dimension of time in teaching and learning by extending and deepening the engagement with time in education For example it analyzes the climate crisis in terms of education and how the realization that the climate is changing sits parallel and adjacent to

pedagogy The climate crisis and how to do anything about it through education is an example of how considering the dimension of time opens up education beyond quick or narrow fixes and introduces a profound synthesis for the future
