- 13) What is a rest position and why is it called that? (Label it on the transverse wave you drew in # 11).
Think of the horizontal line as the position of the rope before it is disturbed. This position is called the rest position. As the wave passes, the rope moves above or below the rest position.
- 14) What is amplitude? The maximum distance the particles of a medium move away from their rest positions as a wave passes through the medium.
- 15) How does adding more energy to a wave affect its amplitude? Amplitude is directly related to energy, more energy means a greater amplitude.
