Bot Making Guide Alisa Turing, AI, 2025-02-17. Bot Making Guide offers a practical introduction to building chatbots and automation tools, essential technologies for modern businesses and individuals. It emphasizes hands-on learning, guiding readers through the process of creating intelligent bots using popular platforms like Dialogflow and Rasa. The book uniquely focuses on empowering individuals with programming knowledge to innovate and solve problems creatively, regardless of extensive resources. The guide begins with chatbot architecture and automation frameworks, progressing to simple chatbot construction utilizing natural language processing (NLP) and machine learning (ML). It then explores creating custom automation tools via APIs, with examples like automating social media or data aggregation. Did you know that chatbots can significantly enhance customer service by providing instant support and automating routine tasks? Or that automation tools extend beyond customer interaction to encompass data analysis and content generation? The later chapters discuss advanced techniques, ethical

considerations and real world deployment strategies offering insights into scaling and maintaining these systems This approach ensures readers gain the skills to actively participate in the evolving digital landscape of AI development and automation
