Cooley, 2016-06-28 Excerpt from Teaching Home Economics Before the war these studies were recognized by some as an essential part of the general education of every girl With the declaration of peace they assume a new significance and appear as an indispensable part of her education This is true because every girl needs instruction regarding better and more healthful living and training in those practices which will enable her to live her daily life more intelligently to rear her children more thoughtfully and to serve her community and country more efficiently These studies are needed by some because they prepare also for certain definite wage earning vocations This book draws the distinction between home economics studies as organized for general or liberal education purposes and such lines of specialized vocational training as may have grown out of them About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Introducing Home Economics** Jenny Schlencker Waddell, 1984
