Back cover Engaging Curriculum Bill Green, 2017-09-18 Explicitly linking curriculum inquiry to English education via recurring themes of representation, democracy and knowledge, this book is a call for both researchers and practitioners to engage with curriculum explicitly and deliberatively as both a concept and a question. The approach is broadly conceptual and constitutes an exercise in theoretical and philosophical inquiry. While deeply informed by North American debates and developments, this book offers a distinctive counterpoint and a strategically ex-centric perspective being equally informed by the curriculum scene in Australia as well as the UK and elsewhere. Divided into two sections, this book first addresses matters of general curriculum inquiry while the second turns more specifically to English teaching and to associated questions of language literacy and literature in L1 education. Green brings the two together through a critical examination of the Australian national curriculum especially in its implications and challenges for English teaching and with due regard for the project of transnational curriculum inquiry. **Making Sense of Mass Education** Gordon Tait, Nerida Spina, Jenna Gillett-Swan, Peter O'Brien, 2023-01-10 Making Sense of Mass Education provides a contemporary analysis of the ideas and issues that have traditionally dominated education research, challenging outdated preconceptions with fundamental theory and discussion. Poetry and Pedagogy across the Lifespan Sandra Lee Kleppe,Angela Sorby,2018-10-08 This book explores poetry and pedagogy in practice across the lifespan

Poetry is directly linked to improved literacy creativity personal development emotional intelligence complex analytical thinking and social interaction all skills that are crucial in contemporary educational systems However a narrow focus on STEM subjects at the expense of the humanities has led educators to deprioritize poetry and to overlook its interdisciplinary multi modal potential The editors and contributors argue that poetry is not a luxury but a way to stimulate linguistic experiences that are formally rich and cognitively challenging To learn through poetry is not just to access information differently but also to forge new and different connections that can serve as reflective tools for lifelong learning This interdisciplinary book will be of value to teachers and students of poetry as well as scholars interested in literacy across the disciplines
