Italian Textbooks For Middle School:

Teaching a Dark Chapter Daniela R. P. Weiner, 2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them Italian Books and Periodicals, 1987 *The Booklist*, 1922 Female Cultural Production in Modern Italy Sharon Hecker, Catherine Ramsey-Portolano, 2023-04-13 This book is the first critical interdisciplinary examination in English of Italian women s contributions to intellectual artistic and cultural production in modern Italy Examining commonalities and diversities from the country s Unification to today the volume provides insight into the challenges that Italian women engaged in cultural production have faced and the strategies they have deployed in order to achieve their objectives The essays address a range of issues from women s self identification and public ownership of their professional roles as laborers in the intellectual and cultural realm to questions about motherhood and financial remuneration to the role of creative foreign women in Italy Through critical analysis and direct testimony from new and typically marginalized voices including an Arab Italian writer an Italian Dominican filmmaker and a transgender activist new forms of ongoing struggle emerge that redefine the culturally diverse landscape of female intellectual and creative production in Italy today The volume rethinks a solely national Made in Italy reading of the subject of female intellectual labor demonstrating instead the wide network of influences and relationships that have existed for Italian women in their professional aspirations **A Primer of Italian Fascism** Jeffrey Thompson Schnapp, Olivia E. Sears, Maria G. Stampino, 2000-01-01 A Primer of Italian Fascism makes available for the first time in English translation the key documents pertaining to one of our century s defining mass political movements Whereas existing anthologies survey Fascist writings in a multiplicity of national settings A Primer of Italian Fascism opts for a tightly focused in depth approach that emphasizes the

development of Fascist ideology in the country of its birth Historically speaking Italian Fascism was the original Fascism The model for subsequent movements including Nazism Falangism and Integralism Italian Fascism set out to define a third way to modernization known as corporatism A Primer of Italian Fascism situates the rise and fall of corporatist ideals within the framework of the actual history of Mussolini's movement and regime It includes not only classic doctrinal statements such as Mussolini's Foundations and Doctrine of Fascism and writings by corporatist theorists such as Bottai Pellizzi Rocco and Spirito but also an array of fundamental political and juridical documents including the party platforms adopted by the Fascist combat brigades the 1938 Manifesto of Race the 1940 Manifesto of Verona and the Fascist labor and school charters By making available such an extensive array of source texts A Primer of Italian Fascism aims to open up for the English reader a more complex and complete vision of Fascism both in Italy and beyond [Booklist](#), 1922 [School History Textbooks across Cultures](#) Jason Nicholls, 2006-05-15 What do school history textbooks mean in the contemporary world What issues and debates surround their history and production their distribution and use across cultures This volume brings together articles by authors from the United States Italy Japan Germany France Russia and England each piece drawing attention to a series of fascinating yet highly specific national debates In this collection perspectives on the place and purpose of school history textbooks are shown to differ across space and time For the student or scholar of comparative education this compilation raises important methodological questions concerning the grounds and parameters upon which it is possible to make comparisons [History Education at the Edge of the Nation](#) Piero S. Colla, Andrea Di Michele, 2023-06-27 This edited volume explores the evolution of history education from a transnational perspective focusing on border regions in Europe that are considered on the periphery of the Nation State By introducing this concept and taking into consideration the dynamics of decentralization and the development of minorities teaching practices and narratives the book sheds light on new challenges for history education policy and curriculum design Chapters take a comparative approach dissecting and analyzing specific case studies from school systems in France Germany Italy the UK and Scandinavian countries In doing so the editors and their authors weave a systematic account of the impact of local autonomy on educational culture on the civic remit of schools and on the narratives embodied by history school canons **They Came By Ship** Mario Toglia, 2007-05-31 They Came By Ship The Stories of the Calitri Immigrants in America is the product of the Internet Age which brought together people researching their roots to their ancestral town of Calitri in Southern Italy They came to know one another and in many cases rekindled old friendships and discovered distant relatives in second and third cousins They began sharing stories on the Net of the good old days recalling neighborhoods where their parents and grandparents had settled after emigrating from Italy These communities included Brooklyn New Rochelle Tarrytown Dobbs Ferry Batavia Mount Vernon in New York Montclair Paterson Newark in New Jersey Stamford Bridgeport Torrington in Connecticut Dunmore in Pennsylvania Washington DC and Pittsfield MA Their recollections proved to be so interesting and
