

1. The languages that seem to be used to the most to create PC and Mac operating systems are a variation of C languages (C++, C#, or objective C). why? The C language is simple and more importantly, "it has been ported to so many CPU architectures" rendering more value to OS's.
2. For mobile OS, it is C++ and C. the reason is like the first response, except that PC/Mac correlate with android and iPhones so that they adapt to one another.
3. Common web app languages: JavaScript, Java, PHP, Python. They are used for various reasons to create visibility of content to the user and ease of use. From a programming standpoint, it depends on what the objective is to assign why it is being used.
4. Android and/or iOS mobile application are similarly written in C for adaptation purposes.
5. Python Java, JavaScript are top 3.
6. I would need to read/write in Python, PHP, Java, JavaScript & C/C++. These are the best / Must know languages for IT professional because of their usage in websites, networks, and servers.

Hello,

I am interested to know more about cyber security and application development, after I have done so researching, I found out that C language is one of the languages that can provide some low-level functionality to users. "Low-level" functionality just means that a programmer can operate at the bit-level, interact with a computer's memory and CPU registers directly, and perform other high-level tasks as well. C has a lot of flexibility and it depends on the situation you are using it for.

Post 2

Hello,

C language is essential in cyber security perspective, an attacker who is proficient in C could manipulate all kinds of vulnerabilities in a computer's system – which makes it equally important for cyber professionals to be able to identify these weaknesses themselves and know how to counter them. And since C is the basis for so many operating systems, there are a substantial number of attacks that are going after targets that are written in C., I think it is one of the top languages that I would like to learn.
