Assault on Paradise Conrad Phillip Kottak, 2017-11-10 By the highest standards *Assault on Paradise* ranks among the best and most complete modern ethnographic accounts ever written In a rich narrative style it chronicles the rapid social and economic change in Arembepe a once isolated coastal fishing village in Brazil where the author first conducted anthropological fieldwork more than fifty years ago With emphasis on the impact of globalization technology and mass media the current edition extends stories of people and events as well as internal and external changes Readers quickly feel a part of the evolving community of Arembepe and the author's close friends and informants As one reviewer put it The people and personalities come through in a very human and often amusing way This isn't ethnography with the people taken out The well structured jargon free coverage makes it ideal for use in introductory anthropology courses

Families Alex Liazos, 2015-12-03 Unlike other family textbooks that mostly emphasize conflicts and problems this book

also features the joys and pleasures of family living and its mutually nourishing qualities Its perspective reflects polls surveys and student essays indicating that most people value their families Families everywhere provide love support and sustenance to their members but they do so in many different arrangements Understanding the wide variety of families historically and across cultures gives the student a better basis for understanding how families change and a better grasp of more controversial changes such as the gradual acceptance by Westerners of same sex marriage and child rearing by single people Liazos offers two poignant chapters not found in other texts Family Living Chapter Six focuses on the social value of caregiving and family meals Kin and Community Chapter Seven focuses on relationships among kin and the larger community

Christian Identity amid Islam in Medieval Spain Charles L. Tieszen,2013-05-30 In Christian Identity amid Islam in Medieval Spain Charles L Tieszen explores a small corpus of texts from medieval Spain in an effort to deduce how their authors defined their religious identity in light of Islam and in turn how they hoped their readers would distinguish themselves from the Muslims in their midst It is argued that the use of reflected self image as a tool for interpreting Christian anti Muslim polemic allows such texts to be read for the self image of their authors instead of the image of just those they attacked As such polemic becomes a set of borders authors offered to their communities helping them to successfully navigate inter religious living
