**Distributed Leadership** Alma Harris, 2009-03-17 Alma Harris The idea of school leadership is currently preoccupied with the idea of distributed leadership Few ideas it seems have provoked as much attention debate and controversy Whatever your position on distributed leadership and you cannot fail to have one it is irrefutable that distributed leadership has become the leadership idea of the moment Yet it is an idea that can be traced back as far as the mid 20s and possibly earlier So why the interest Part of the answer can be found in a move away from theorizing and empirical enquiry focused on the single leader This shift has undoubtedly been fuelled by structural changes within schools and across school systems that have resulted in alternative models or forms of leadership practice Evidence highlights how those occupying formal leadership positions are increasingly recognizing the limitations of existing structural arrangements to secure organizational growth and transformation Fullan et al 2007 Harris et al 2008 Chapman et al 2008 As a consequence many heads and principals are actively restructuring realigning and redesigning leadership practice in their school Harris 2008 While the terminology to describe such changes varies the core principle is one of extending or sharing leadership practice While scholars have long argued for the need to move beyond those at the top of organizations in order to examine leadership Barnard 1968 Katz and Kahn 1966 until relatively recently much of the school leadership literature has tended to focus upon the head or the principal

*Fertility, Living Arrangements, Care and Mobility* John Stillwell, Ernestina Coast, Dylan Kneale, 2009-06-12 Many parts of the world are experiencing rapid demographic restructuring resulting in an ageing population with increasingly significant work and care pressures on cohorts less able or willing to provide support This book examines some of the important trends that have underpinned reductions in fertility including delayed child bearing and increased childlessness It demonstrates how relationships between partners have resulted in new living arrangements with changing attitudes from marriage to cohabitation as the social norm and it considers the health and well being for particular at risk groups such as the elderly and stepparents as well as aspects of mobility such as household migration and commuting to school The book brings together a series of studies that all involve quantitative analyses of secondary data from censuses surveys or administrative records The trends and patterns reported provide new and interesting insights into behaviour of the household and the roles of adults and children and point to questions of critical importance for practitioners and policy makers **The RoutledgeFalmer Reader**

**in Inclusive Education** Keith J. Topping, Sheelagh Maloney, 2005 Each chapter ends with questions and issues for reflection The book also includes an annotated list of further reading It is designed to encourage readers to conduct their own research This is a useful text for practitioner postgraduate students researchers academics and policy makers in education Jacket
