Sats ,2003 **Index of Conference Proceedings** British Library. Document Supply Centre,1998 **Parliamentary Debates (Hansard)**. Great Britain. Parliament. House of Commons,2001 *The British National Bibliography* Arthur James Wells,2001 **Resources in Education** ,2001-04 *Identity, Social Class and Learning in the 'Bottom' Reading Group* Jess Anderson,2025-02-28

The common practice of ability grouped reading in UK schools often termed guided reading influences children s sense of identity feelings and progress as readers Drawing on a rich ethnographic study of three primary classrooms this book reopens a critical inquiry into ability grouped reading that has been quiet since the 1990s when guided reading in literacy education became established practice in the UK and the US Through the lens of children s agency in accommodating resisting and at times transforming such reading pedagogy the book shows how readers are shaped by ability grouped reading and by the more egalitarian reading pedagogies introduced in the study Children s individual and collective experiences are brought to life through extended narratives that attend as closely to gesture posture visage silences and prosody of speech as to spoken words The book ends with a provocation how literacy pedagogy might change if reflexive noticing and dismantling of hierarchies become the compass of pedagogical change This demands attention to structural inequalities around race gender and class and a turn towards deep listening to children As well as being a valuable read for scholars of the sociology of childhood and education it should appeal to anyone concerned with making education more equitable including teachers school leaders parents carers and policymakers

The Taming of Education Rob Creasy,2017-08-24 This book evaluates contemporary approaches to education with a particular focus on the ways in which assessment shapes the educational experience and influences pupils and students It adopts a critical approach arguing that there is a need for students to develop critical thinking skills be flexible and have the capacity for originality Education has increasingly come to be seen as a process with qualifications as the output however as economies change attaining advantage increasingly relies on creativity and originality Unfortunately

in the quest to remove uncertainty from education creativity and originality are often overlooked and the result is that education is impoverished Creasy argues here that there is no single factor that has shaped education and led to this situation rather developments within education can be seen as having been shaped by a range of forces such as neoliberalism New Public Management standardization and internationalization This is not to claim any deliberate undermining of education but the cumulative effect is that education is less and less fit for purpose Written for anyone involved in education student teacher or manager this book draws upon Educations Studies Sociology and Social Policy to offer a compelling critique of contemporary education
