assumption is that women s empowerment is needed to create a sustainable future at micro meso and macro levels which presumes safety peace ecological considerations and compassionate leadership **"ECEG2016-Proceedings of 16th European Conference on e-Government ECEG 2016 "** Mitja De Man,Tina Juki,2016-06-02 *Sustainable Development in Africa* Walter Leal Filho,Rudi Pretorius,Luiza Olim de Sousa,2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies *ICIE 2016 Proceedings of the 4th International Conference on Innovation and Entrepreneurship* Dr Kenneth A.
