## **Natural Science Grade Memorandum:**

Partners in Science Robert E. Kohler, 1991 Robert Kohler shows exactly how entrepreneurial academic scientists became intimate partners in science with the officers of the large foundations created by John D Rockefeller and Andrew Carnegie and in so doing tells a fascinating story of how the modern system of grant getting and grant giving evolved and how this funding process has changed the way laboratory scientists make their careers and do their work This book is a rich historical tapestry of people institutions and scientific ideas It will stand for a long time as a source of precise and detailed information about an important aspect of the scientific enterprise It also contains many valuable lessons for the coming years John Ziman Times Higher Education Supplement Natural Science Teaching in Great Britain Arthur Jay Klein, Glen Levin Swiggett, John Dorsey Wolcott, Mary Burchard Orvis, Peter Henry Pearson, United States.
