4. Repeating the same steps for various values of α and β will give you a series of plots. Do you see any trends? Do you see any patterns? Do you see any surprises? Do you see any trends? Do you see any patterns? Do you see any surprises?

1. The first step in the process is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved. 2. Next, you need to gather information and resources. This includes researching the problem, identifying stakeholders, and determining what tools and materials are needed. 3. Once you have gathered the necessary information, you can begin to develop a plan. This involves setting priorities, identifying tasks, and determining the order in which tasks should be completed. 4. The next step is to implement the plan. This involves carrying out the tasks and monitoring progress. 5. Finally, you need to evaluate the results. This involves comparing the actual results with the expected results and identifying any areas for improvement.
