[Metaphor](#) Tony Veale,Ekaterina Shutova,Beata Beigman Klebanov,2022-06-01 The literary imagination may take flight on the wings of metaphor but hard headed scientists are just as likely as doe eyed poets to reach for a metaphor when the descriptive need arises Metaphor is a pervasive aspect of every genre of text and every register of speech and is as useful for describing the inner workings of a black hole itself a metaphor as it is the affairs of the human heart The ubiquity of metaphor in natural language thus poses a significant challenge for Natural Language Processing NLP systems and their builders who cannot afford to wait until the problems of literal language have been solved before turning their attention to figurative phenomena This book offers a comprehensive approach to the computational treatment of metaphor and its figurative brethren including simile analogy and conceptual blending that does not shy away from their important cognitive and philosophical dimensions

Veale Shutova and Beigman Klebanov approach metaphor from multiple computational perspectives providing coverage of both symbolic and statistical approaches to interpretation and paraphrase generation while also considering key contributions from philosophy on what constitutes the meaning of a metaphor This book also surveys available metaphor corpora and discusses protocols for metaphor annotation Any reader with an interest in metaphor from beginning researchers to seasoned scholars will find this book to be an invaluable guide to what is a fascinating linguistic phenomenon

Smull, Thomas Baumgardner Cochran, W. Harry Baker, 1913 **The Coen Brothers' America** M. Keith Booker, 2019-05-24 For more than three decades Joel and Ethan Coen have produced some of the most unique and thought provoking works in modern cinema In broad comedies such as *Raising Arizona* violent thrillers like *No Country for Old Men* and black comedies such as *Fargo* the filmmakers have offered brilliant takes on a variety of film genres One of the most distinctive features of their movies is their skewed view of America itself In *The Coen Brothers America* M Keith Booker discusses feature films produced by the pair since their 1984 debut *Blood Simple* The author focuses on how the Coen brothers films engage with American cultural history and are embedded in specific geographical settings From New York to Los Angeles from Texas to Minnesota the Coens capture the essence of real locations from unusual angles which often make the films appear as if they are taking place in an alternate reality In addition many of the brothers films are steeped in America's cultural past from the deep south of the 1930s in *O Brother Where Art Thou* to the Greenwich Village of the 1960s in *Inside Llewyn Davis* The Coens make particularly effective use of films from Hollywood's Golden Age producing their own updated versions of such genres as film noir *The Man Who Wasn't There* the Western *True Grit* and screwball comedy *The Hudsucker Proxy* not to mention their idiosyncratic depictions of Hollywood itself in *Barton Fink* and *Hail Caesar* This book also explores how the Coens draw upon cultural phenomena outside of film including literature music and television Approaching each film within the framework of Ethan and Joel's overall vision *The Coen Brothers America* provides an entertaining look at the pair's work that will appeal to scholars and fans alike
