international team of scholars has been assembled to produce a systematic introduction to the various epistemological
methodological and theoretical aspects of the strategy as practice approach This perspective explores and explains the
contribution that strategizing makes to daily operations at all levels of an organization Moving away from a disembodied and
asocial study of firm assets technologies and practices the strategy as practice approach breaks down many of the traditional
paradigmatic boundaries in strategy to investigate who the strategists are what strategists do how they do it and what the
consequences or outcomes of their actions are Including a number of detailed empirical studies the handbook will be an
