Enseigner Les Sciences Et Technologies Autrement:

Enseigner les sciences et technologies autrement, 2011 **Enseigner les sciences et technologies autrement** Bruno Dey, Marianne Milan-Frechi, 2011-07-07 Enseigner les sciences et technologies autrement est le septième ouvrage de la collection Master Class la boîte à outils des enseignants. Découvert en 23 fiches synthétiques et écrit par deux enseignants de terrain, cet ouvrage s'adresse aux enseignants du second degré ainsi qu'à ceux qui souhaitent le devenir. Il sera un guide précieux pour les enseignants du secondaire en début de carrière tout comme pour les professeurs plus expérimentés soucieux de renouveler leur pratique au sein de la classe. Il propose des pistes pour enseigner les sciences et technologies de façon innovante en apportant des informations toujours plus concrètes et pratiques aux élèves. Il délivre aux enseignants des témoignages des expériences, des exemples concrets, des liens utiles, des adresses et toutes sortes d'idées originales pour maintenir la curiosité des élèves pour les sciences et technologies au sein de la classe. Le public : Enseignants du secondaire dans les matières scientifiques toutes filières confondues **Enseigner les sciences et technologies autrement**, 2011 **Enseigner différemment avec les TICE** Pascal Bihouée, Anne Coliaux, 2011-07-07 Enseigner différemment avec les TICE est le huitième ouvrage de la collection Master Class la boîte à outils des enseignants. Les technologies de l'information et de la communication ont largement modifié notre mode de vie et de communication. Cette nouvelle culture du numérique a également entraîné une profonde évolution dans le domaine de l'éducation. Dans ce contexte, l'ensemble des programmes et des directives pédagogiques accorde une place effective aux technologies de l'information et de la communication pour l'enseignement TICE. Depuis 2001, un Brevet Informatique et Internet a été mis en place. Depuis 2007, maîtriser les Technologies de l'Information et de la Communication est devenue l'une des dix compétences professionnelles de tout enseignant. Face à la montée en puissance des outils TICE au sein des établissements scolaires, la nécessité de former le personnel éducatif apparaît désormais comme une évidence. Cet ouvrage décrypte en 25 fiches synthétiques et écrit par des enseignants de terrain, répond à ce besoin. **Enseigner les sciences et la technologie au préscolaire et au primaire** Marcel Thouin, 2017-06-15 T00:00:00-04:00 Enseigner les sciences et les technologies au préscolaire et au primaire constitue une référence indispensable pour les étudiants des programmes de formation des maîtres du préscolaire et du primaire pour les enseignants en exercice et pour tous ceux qui souhaitent apprendre les meilleures façons d'enseigner ces matières. Cette nouvelle édition entièrement revue et augmentée comporte des chapitres inédits qui présentent la Progression des apprentissages au primaire en sciences et technologies et offrent un aperçu de la grande variété des activités d'enseignement dans ces disciplines. De multiples mises à jour et améliorations ont été apportées à tous les autres chapitres et aux annexes de l'ouvrage. On y trouve de nombreux exercices que des étudiants peuvent réaliser en équipe. Le livre fournit ainsi les repères culturels essentiels pour favoriser l'intégration des savoirs enseignés pour employer plus efficacement les technologies de l'information et de la communication à l'école ou dans des musées scientifiques ainsi que pour mieux valuer les apprentissages et le matériel didactique.
