**The Arabic Classroom** Mbaye Lo, 2019-04-12 The Arabic Classroom is a multicontributor work for trainee and in service teachers of Arabic as a foreign language. Collected here is recent scholarly work and also critical writing from Arabic instructors, Arabists, and language experts to examine the status of the teaching and learning of Arabic in the modern classroom. The book stresses the inseparability of the parameters of contexts, texts, and learners in the effective Arabic classroom and investigates their role in enhancing the experience of teaching and learning Arabic. The book also provides a regional perspective through global case studies and encourages Arabic experts to search for better models of instruction and best practices beyond the American experience. *The Chinese Times*, 1890 *Resources in Education*, 1990-05

This Was No Coincidence Mitra Mostofi, 2012-10-05 It is no coincidence that you have come to this page; call it a page in your life, a chapter, an entire book. And that's what this is: an entire book narrating a journey through thought-provoking human emotions that make or break our lives. If you're ready for the truth, then you're ready to practice living truthfully. If not, simply turn away and deny that this event ever happened. If you're still here, then perhaps you agree with me that events in our lives are no coincidence; that they are lessons we can learn from; that our greatest sufferings can be our most profound courses in life. Brown, Not White Guadalupe San Miguel, 2005-10-26 Strikes, boycotts, rallies, negotiations, and litigation marked the efforts of Mexican-origin community members to achieve educational opportunity and oppose discrimination in Houston schools in the early 1970s. These responses were sparked by the effort of the Houston Independent School District to circumvent a court order for desegregation by classifying Mexican American children as white and integrating them with African American children, leaving Anglos in segregated schools. Gaining legal recognition for Mexican Americans as a minority group became the only means for fighting this kind of discrimination. The struggle for legal recognition not only reflected an upsurge in organizing within the community but also generated a shift in consciousness and identity. In *Brown, Not White*, Guadalupe San Miguel Jr. astutely traces the evolution of the community's political activism in education during the Chicano Movement era of the early 1970s. San Miguel also identifies the important implications of this struggle for Mexican Americans and for public education. First, he demonstrates the political mobilization in Houston, underscoring the emergence of a new type of grassroots ethnic leadership committed to community empowerment and to inclusiveness of diverse ideological interests within the minority community. Second, it signaled a shift in the activist community's identity from the assimilationist Mexican American Generation to the rising Chicano Movement with its nationalist ideology. Finally, it introduced Mexican American interests into educational policy making in general and into the national desegregation struggles in particular. This important study will engage those interested in public school policy as well as scholars of Mexican American history and the history of desegregation in America. **The Jewelers' Circular**, 1920 **Legal Intelligencer**, 1861 **Keywords Index to U.S. Government Technical Reports** United States.
