Before You Begin

Before installing the Powered USB card be sure to power off the rp5800 and disconnect the power cord from the power outlet.

WARNING: To avoid the risk of serious injury, ensure that the power cord is unplugged from the electrical outlet at the wall before installing the card. Failure to do so may expose you to the risk of electric shock.

CAUTION: To avoid the risk of damage to the system, ensure that the power cord is unplugged from the electrical outlet at the wall before installing the card.

NOTE: You can install the Powered USB expansion card in the PCI Express x1 slot or the PCI Express x16 slot, or both. Two 12 volt Powered USB expansion cards are supported.

Installing the Cord

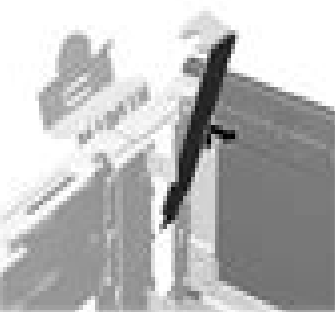

1. Turn off power to the system and disconnect the power cord from the power outlet.
2. Slide the screen panel handle toward the rear of the computer. Then lift the screen panel up and off the computer.

3. Release the half-height slot cover retention latch by sliding the green tab on the latch and rotating the latch to the open position.

4. Remove the appropriate expansion slot cover on the back of the chassis. Pull the slot cover straight up then swing back the inside of the chassis.

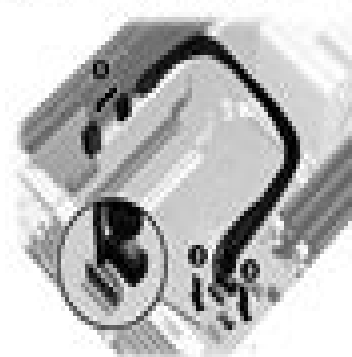

5. Hold the cord just above the PCI Express expansion socket on the system board then align the bracket on the cord with the open slot on the rear of the chassis. Then the cord straight down into the expansion socket on the system board.

NOTE: You can install the Powered USB expansion card in the PCI Express x1 slot or the PCI Express x16 slot, or both. Two 12 volt Powered USB expansion cards are supported.

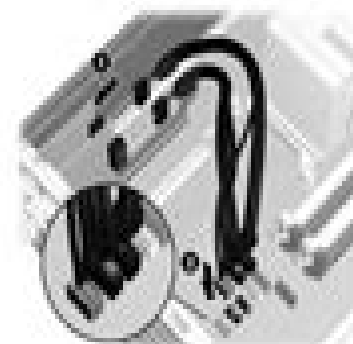

6. The cable included with the card has a single connector on one end and dual connectors on the other end. Connect the single end of the cable to the rear of the card. Connect the single end of the cable to the other end of the cable to the power 12 volt USB connector on the system board. The cable will plug on one side of the power connector only. Connect the black connector to one of the two black 12 volt USB connectors on the system board.

NOTE: The system board connector allow you to install two 12 volt Powered USB expansion cards. The green connectors on the system board are coupled together as one connector. The black connectors on the system board are separate connectors.

7. If you are installing two cards, connect the single end of each cable to the rear of the cards. Connect the green connectors on the other end of the cables to the power 12 volt USB connectors on the system board that you coupled together. Connect the black connectors to the two black 12 volt USB connectors on the system board.

8. Rotate the slot cover retention latch back to place to secure the expansion card.

9. Slide the lip on the front end of the screen panel under the lip on the front of the chassis. Then press the back end of the screen panel into the unit so that it locks into place.

10. Reconnect the power cord and any external devices, then turn on the computer.
