New York Supreme Court ,1913 1988 NASA Authorization United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Transportation, Aviation, and Materials,1987 **Space Law** Francis Lyall,Paul B. Larsen,2016-04-01 The opening of space to exploration and use has had profound effects on society Remote sensing by satellite has improved meteorology land use and the monitoring of the environment Satellite television immediately informs us visually of events in formerly remote locations as well as providing many entertainment channels World telecommunication facilities have been revolutionised Global positioning has improved transport This book examines the varied elements of public law that lie behind and regulate the use of space It also makes suggestions for the development and improvement of the law particularly as private enterprise plays an increasing role in space YSEC Yearbook of Socio-Economic Constitutions 2020 Steffen Hindelang,Andreas Moberg,2021-03-29 This book presents the very first interdisciplinarily grounded comprehensive appraisal of a future Common European Law on Investment Screening Thereby it provides a foundation for a European administrative law framework for investment screening by setting out viable solutions and evaluating their pros and cons Daimler the harbour terminal in Zeebrugge or Saxo Bank are only three recent examples of controversially discussed company takeovers in Europe The elephant in the room is China and its Belt and Road Initiative The political will in Europe is growing to more actively control investments flowing into the EU The current regulatory initiatives raise several fundamental constitutional and regulatory issues Surprisingly they have not been addressed in any depth so far The book takes stock of the current rather fragmented regulatory approaches and combines contributions from leading international academics practitioners and policy makers in their respective fields Due to the volume s comprehensive approach it is expected to influence the broader debate on the EU s upcoming regulation of this matter The book is addressed to participants from academia as well as to representatives from government business and civil society

Renewable Energy Resource Assessment and Forecasting George Galanis,2020-11-27 In recent years several projects and studies have been launched towards the development and use of new methodologies in order to assess monitor and support clean forms of energy Accurate estimation of the available energy potential is of primary importance but is not always easy to achieve The present Special Issue on Renewable Energy Resource Assessment and Forecasting aims to provide a holistic approach to the above issues by presenting multidisciplinary methodologies and tools that are able to support research projects and meet today s technical socio economic and decision making needs In particular research papers reviews and case studies on the following subjects are presented wind wave and solar energy biofuels resource assessment of combined renewable energy forms numerical models for renewable energy forecasting integrated forecasted systems energy for buildings sustainable development resource analysis tools and statistical models extreme value analysis and forecasting for renewable energy resources *Innovating in a Secret World* Tina P. Srivastava,2019-07-01 Our national

security increasingly depends on access to the most sophisticated and advanced technology Yet the next time we set out to capture a terrorist leader we may fail Why The answer lies in a conflict between two worlds One is the dynamic global commercial world with its thriving innovations The other is the world of national security in which innovation is a matter of life or death The conflict is about secrecy Innovating in a Secret World is a detailed examination of the U S government and innovation landscapes and of the current trends in often secret national security related research and development R D Based on case studies detailed research and interviews with executives at Fortune 500s startup entrepreneurs and military directors and program managers this accessible and timely book is a must read Tina P Srivastava evaluates whether the strategy of technology innovation in the world of national security leaves certain innovations behind or unintentionally precludes certain classes of innovators from participating She identifies the unintended consequences and emergent behaviors of this conflict This examination unfolds in a complex dynamic system that includes the legal framework in which technology innovation must exist For more than a decade Srivastava has been on the front lines of cutting edge technology innovation She suggests focusing on an emerging class of R D strategy called open innovation a strategy that broadens participation in innovation beyond an individual organization or division traditionally assigned to perform R D activities Through compelling stories of commercial and early government applications she shows how open technology innovation strategies can enable accelerate and enhance technology innovation Successful incorporation of open innovation into the previously closed U S government R D landscape can yield profound benefits to both national security and global leadership
