

LINE PLOTS

- Line plots are used to project data in a more comprehensive manner. It is a visual representation of the data being discussed.
- It is usually composed of horizontal number line and marks or dots to represent the frequency of each value or data.

The figure on the left is the line plot representation of the given table of values on the right. Numbers are written on the number line and the marks are the frequencies.

Number	Frequency
1	0
2	2
