Cognitive Readiness in Project Teams Carl Belack, Daniele Di Filippo, Ivano Di Filippo, 2019-02-21 Issues surrounding business complexity plague organizations throughout the world This situation is particularly true of the numerous complex projects and programs upon which organizations embark on a regular basis Current project management processes and standards are based on Newtonian Cartesian principles such as linearity reductionism and single source problem causation However complex projects exhibit both Newtonian Cartesian characteristics and complex systems characteristics such as emergence self organization non linearity non reductionism and multi source problem causation To conduct successful projects complementary ways of approaching projects are required and new competencies for those who manage projects and for those on project teams are required as well There are a number of books available to help project managers and teams address the issue of systems behavior However there are none that approach complex projects from a neuroscience based approach to human behavior and ambiguity This book does exactly that in order to reduce project complexity and thereby increase the probability of project success Cognitive Readiness in Project Teams looks to the concept of cognitive readiness CR first developed by the United States Department of Defense to better prepare and manage teams of individuals in complex battlefield situations Its intent is to make project managers and teams more focused responsive resilient and adaptive through self mastery and the mastering of interpersonal relationships It introduces a CR framework for project managers and teams This framework has neuroscience fundamentals and theorems as the foundation for the three pillars of CR mindfulness emotional intelligence and social intelligence The book is a compendium of chapters written by renowned authors in the fields of project management neuroscience mindfulness and emotional and social intelligence

Leaders for Tomorrow: Challenges for Military Leadership in the Age of Asymmetric Warfare Marina Nuciari, Eraldo Olivetta, 2021-05-09 Since the end of bipolarism the concept of asymmetric warfare and of asymmetric conflict in general has been increasingly applied with regard to armed forces activities and tasks This book presents the findings of comparative empirical research conducted in selected military units by a group of distinguished experts on military organization who hail from the eight participating countries Bulgaria Cameroon Denmark Finland Italy Lithuania the Philippines and Spain It discusses remarks made by military leaders with extensive experience in the field regarding current doctrines on military leadership and their

applicability in the field as well as proposals and suggestions for new directions It is a complex relation always based on respect and politeness but often with mismatched interests Army Colonel It makes you realize that there is a cultural gap You must firstly understand who you are going to relate to and the culture of these people and then try to establish a certain kind of relationship Often the platoon commander states his objective and must try to establish a relationship contact with the village chief Army Lieutenant Platoon Commander In Afghanistan We had meals with the locals sometimes the food didn't taste good but you had to eat it if you wanted to be welcomed back again Army Captain Company Commander These are just some of the many voices stemming from the ground in diverse international asymmetric conflict theatres in Iraq in Kosovo in Afghanistan comments by military officers commanders at different hierarchical levels asked to reflect on their experiences as military leaders in crisis response operations Military professionals and military leaders in particular perceive themselves as facing ambiguous situations that require an update in their professional training and new skills to confront unexpected and unpredictable factors Drawing on lived experiences the book offers insights into what a new kind of leadership means when leaders have to cope with diverse and unclear missions It also addresses leadership styles and behaviours as well as individual adaptive behaviours on the part of military leaders with special reference to middle and middle high level ranks such as captains majors and colonels Given its scope the book will appeal not only to military professionals and military affairs scholars and experts but also to readers interested in gaining a better understanding of the challenges that international expeditionary units are facing in crisis areas around the globe
