G4s Employee Manual:

Rules governing enforced removals from the UK Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-01-26 The inquiry launched following the death of Jimmy Mubenga on a deportation flight from the UK found that although there were some positive aspects of the process which is carried out on the UK Border Agency's behalf by a private security contractor initially G4S and since 1 May 2011 Reliance Security the Committee found evidence of inappropriate use of physical restraint and the possible use of unauthorised and potentially dangerous restraint techniques weaknesses in passing on information about detainees medical conditions to all the relevant staff Use of racist language by contractors Use of excessive numbers of contractor staff The Committee recommends that the UK Border Agency should strengthen its procedures so that its own staff feel that they are entitled and expected to challenge any poor conduct on the part of contractors The Committee also rejects the practice of taking detainees to the airport as reserves in case another detainee is taken off a removal flight at the last minute To strengthen safeguards against the ill treatment of prisoners the Committee recommends that members of the Independent Monitoring Boards for immigration removal centres or a similar independent monitoring network be given access to chartered removal flights Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board, 2016-05 Field Manual United States. Department of the Army, 1978 **Asylum Seekers** Linda Briskman, Alperhan Babacan, 2009-05-27 **Escape from Manus Prison** Jaivet Ealom, 2022-08-02 The awe inspiring story of the only person to successfully escape Australia's notorious offshore detention centre and his long search for freedom In 2013 Jaivet Ealom fled Myanmar's brutal regime where Rohingya like him were being persecuted and killed and boarded a boat of asylum seekers bound for Australia Instead of finding refuge he was transported to Australia's infamous Manus Regional Processing Centre Blistering hot days spent in shipping containers on the island melted into weeks then years until finally facing either jail in Papua New Guinea or being returned to almost certain death in Myanmar he took matters into his own hands Drawing inspiration from the hit show Prison Break Jaivet meticulously planned his escape He made it out alive but was stateless with no ID or passport While the nightmare of Manus was behind him his true escape to freedom had only just begun How Jaivet made it to sanctuary in Canada in a six month long odyssey by foot boat car and plane with nothing but his instinct for survival is miraculous His story will astonish anger and inspire you It will make you reassess what it means to give refuge and redefine what can be achieved by one man determined to beat the odds **From Gulag to Guantanamo** Wesley Kendall, 2015-12-04 This book offers the reader an incisive view into the political social and economic evolutions of mass incarceration across the globe It examines the different political and social contexts that combine with free market mechanisms of mass incarceration to ascertain how economic incentives shape penal policy Using qualitative analysis of a wide variety of incarceration forms each chapter compares a US example with a non US case study showing how first world countries that occupy the economic forefront of prison

privatization are exporting new models of penal institutionalization to developing countries The chapters examine issues such as the privatization of asylum detention centres the economic impacts of maintaining vast forced labour camps the social consequences of imprisoning journalists and the use of state sanctioned torture Capturing a nascent international trend through an interdisciplinary lens this book questions why so many languish in prison whether the incarceration of thousands benefits society as a whole and how these penal policies might be roundly reconsidered **Secularism(s) in**

Contemporary France David Koussens, 2023-01-01 The increasing visibility of Islam in France and the vehemence of debates about it have often contributed to narrow public perceptions of secularism to a simplistic antireligious crusade a misleading image disseminated by the media and politicians alike Taking the opposite stand this book embarks on a comprehensive effort to document the multiple areas in which French secularism plays out in debates over cults places of worship chaplaincy services in public institutions the recognition of associations of worship and more outlining and analyzing the legal paths favored by the state in the regulation of religious diversity While Islam has undoubtedly contributed to the reshaping of French secularism in the last decades the book moves beyond what has come to be known as the Muslim Question to look at the multiplicity of challenges contemporary religious beliefs practices and organizations now pose to the state David Koussens examines the main political and legal configurations of French secularism over the last thirty years through a sociological and juridical lens in order to better document its diversity Such a portrait emphasizes that French secularism is not a univocal phenomenon but one that appears in many guises *Security Entrepreneurs* Alexandra

Gheciu, 2018 This book examines the dynamics and implications of processes of commercialization of security that have occurred following the collapse of communist regimes and focuses on four East European polities Bosnia Serbia Bulgaria and Romania Global Unions, Local Power Jamie K. McCallum, 2013-10-17 News about labor unions is usually pessimistic

focusing on declining membership and failed campaigns But there are encouraging signs that the labor movement is evolving its strategies to benefit workers in rapidly changing global economic conditions *Global Unions Local Power* tells the story of the most successful and aggressive campaign ever waged by workers across national borders It begins in the United States in 2007 as SEIU struggled to organize private security guards at G4S a global security services company that is the second largest employer in the world Failing in its bid SEIU changed course and sought allies in other countries in which G4S operated Its efforts resulted in wage gains benefits increases new union formations and an end to management reprisals in many countries throughout the Global South though close attention is focused on developments in South Africa and India In this book Jamie K McCallum looks beyond these achievements to probe the meaning of some of the less visible aspects of the campaign Based on more than two years of fieldwork in nine countries and historical research into labor movement trends since the late 1960s McCallum's findings reveal several paradoxes Although global unionism is typically concerned with creating parity and universal standards across borders local context can both undermine and empower the intentions of

global actors creating varied and uneven results At the same time despite being generally regarded as weaker than their European counterparts U S unions are in the process of remaking the global labor movement in their own image McCallum suggests that changes in political economy have encouraged unions to develop new ways to organize workers He calls these governance struggles strategies that seek not to win worker rights but to make new rules of engagement with capital in order to establish a different terrain on which to organize
