Battle For Angola Al J. Venter, 2017-04-03 Following the publication of Al Venter's successful Portugal's Guerrilla Wars in Africa shortlisted by the New York Military Affairs Symposium's Arthur Goodzeit Book Award for 2013 his Battle for Angola delves still further into the troubled history of this former Portuguese African colony This is a completely fresh work running to almost 600 pages including 32 pages of color photos with the main thrust on events before and after the civil war that followed Lisbon's over hasty departure back to the metropole There are also several sections that detail the role of South African mercenaries in defeating the rebel leader Dr Jonas Savimbi considered by some as the most accomplished guerrilla leader to emerge in Africa in the past century There are many chapters that deal with Pretoria's reaction to the deteriorating political and military situation in Angola the role of the Soviets and mercenaries in the political transition as well as the civil war that followed With the assistance of several notable military authorities he elaborates in considerable detail on South Africa's 23 year Border War from the first guerrilla incursions to the last In this regard he received solid help from the former head of 4 Reconnaissance Regiment Colonel Douw Steyn who details several cross border Recce strikes including the sinking by frogmen of two Soviet ships and a Cuban freighter in an Angolan deepwater port Throughout the author was helped by a variety of notable authorities including the French historian Dr Ren P lissier and the American academic and former naval aviator Dr John Jack Cann With their assistance he covers several ancillary uprisings and invasions including the Herero revolt of the early 20th century the equally troubled Ovambo insurrection as well as the invasion of Angola by the Imperial German Army in the First World War Former deputy head of the South African Army Major General Roland de Vries played a seminal role It was he dubbed South Africa's Rommel by his fellow commanders who successfully nurtured the concept of mobile warfare where in a succession of armored onslaughts thin skinned Ratel Infantry Fighting Vehicles tackled Soviet main battle tanks and thrashed them There is a major section on South African Airborne the Parabats by Brigadier General McGill Alexander one of the architects of that kind of warfare under Third World conditions Finally the role of Cuban Revolutionary Army receives the attention it deserves officially there were almost 50 000 Cuban troops deployed in the Angolan war though subsequent disclosures in Havana suggest that the final total was much higher **Historical**

Dictionary of Angola W. Martin James, 2018-03-01 Angola slowly recovering from a twenty seven year civil war is becoming a regional super power in southern Africa This rise can be attributed to oil diamonds a battle tested armed forces and a political system that is dominated by one party the Movimento Popular de Libertação de Angola the Popular Movement for the Liberation of Angola MPLA Problems remain to be solved The vast wealth is in the control of the elite while the vast majority of the people live on less than two dollars per day Corruption is rife the health and education system in shambles landmines remain a festering problem and the opposition is intimidated and split into various factions President Eduardo dos Santos who has ruled Angola for almost thirty eight years has opted not to run for re election in the August 2017 elections Instead

his hand picked successor João Lourenço was elected president Interestingly dos Santos has not surrendered his presidency of the party This third edition of Historical Dictionary of Angola contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Angola

Special Operations Success James D. Kiras, 2024-10-24 Special Operations Success establishes a new benchmark in military theory in this deeply analytic and innovative work It answers several pressing questions How successful have American special operations been over the past quarter century Are special forces fated to cycles of expansion and misuse Will special forces invariably exceed the authorities granted to them because of they are Is a general theory of special operations feasible given the range of activities and conditions that fall under the category Kiras work is based on two decades of practical teaching and consulting experience within different special operations communities and its analysis and conclusions are designed to inform practitioners policymakers educators and the general public The book develops a framework in the form of a theory comprising capabilities and control for the comprehensively evaluating special operations success and is divided into three parts Part I lays the foundation for a general theory of special operations Part II explores the two component parts of theory capabilities and control and Part III uses various aspects of the theory depending on available information to assess the success of special operations over a twenty year period in the United Kingdom South Africa and the United States

War of Intervention in Angola Adrien Fontanellaz, Tom Cooper, José Augusto Matos, 2021-06-23 War of Intervention in Angola Volume 4 continues the coverage of the operational history of the Angolan Air Force and Air Defense Force FAPA DAA as told by Angolan and Cuban sources in the period 1985-1988 Many accounts of this conflict better known in the West as the Border War or the Bush War as named by its South African participants consider the operations of the FAPA DAA barely worth commentary At most they mention a few air combats involving Mirage F 1 interceptors of the South African Air Force SAAF in 1987 and 1988 and perhaps a little about the activity of the FAPA DAA s MiG 23s However a closer study of Angolan and Cuban sources reveals an entirely different image of the air war over Angola in the 1980s indeed it reveals the extent to which the flow of the entire war was dictated by the availability or the lack of air power These issues strongly influenced the planning and conduct of operations by the commanders of the Angolan and Cuban forces Based on extensive research with the help of Angolan and Cuban sources War of Intervention in Angola Volume 4 traces the Angolan and Cuban application of air power between 1985-1988 during which it came of age and the capabilities intentions and the combat operations of the air forces The volume is illustrated with 100 rarely seen photographs half a dozen maps and 15 color profiles and provides a unique source of reference on this subject

African Navies Timothy Stapleton, 2022-11-11 This edited volume focuses on aspects of the understudied theme of African sea power including African navies and the engagement of non African navies with the continent Africa possesses 48 000 kilometers of coastline

comprising 38 out of 54 of the continent's states and several strategic choke points for international shipping such as the Suez Canal the Gulf of Aden and the Cape of Good Hope Nevertheless post colonial Africa's small navies and their relations with the navies of external powers have not received much scholarly attention Focusing on Sub Saharan Africa this collection attempts to address this neglect and stimulate further research by offering original chapters related to historical and contemporary themes around Africa's navies The historical chapters cover the origin of the Tanzanian Ethiopian Nigerian and Ghana navies during the era of decolonization and the Cold War the asymmetrical naval campaign fought during the Nigerian Civil War 1967-70 and the activities of the Soviet Navy in supporting African states and movements fighting lingering colonialism and white supremacy during the 1970s and 1980s Focusing on the contemporary situation other chapters discuss the engagement of the Indian Navy with Africa the potential role of the Angolan and Mozambican navies in the Southern African Development Community SADC the transformation and development of the post apartheid South African Navy and the challenges and capabilities of African navies in the early twenty first century The book concludes by discussing the question of whether African coastal countries need navies This book will be of much interest to students of naval power strategic studies African politics and International Relations Chapters 1 2 6 and 8 of this book are available for free in Open Access at www.taylorfrancis.com It has been made available under a Creative Commons Attribution Non

Melson, 2021-02-05 This military study examines the evolution of the Rhodesian armed services during the complex conflicts of the Cold War era Through the 1960s and 1970s Africa endured a series of conflicts involving Rhodesia South Africa and Portugal in conflict with the Frontline States The Cold War brought outside influences including American interest at the diplomatic economic and social level In *Fighting for Time* military historian Charles D Melson sheds new light on this complex and consequential period through analysis of the Rhodesian military Drawing on a wealth of primary sources Melson examines the Rhodesian military's evolution into a special operations force conducting intelligence driven operations Along the way he identifies key lessons to be learned from this low intensity conflict at the level of tactics techniques and procedures Melson looks closely at the military response to the emerging revolutionary threat and the development of general and special purpose units He addresses the critical use of airpower as a force multiplier supporting civil police and army efforts ranging from internal security and border control to internal and external combat operations the necessity of full time joint command structures and the escalation of cross border attacks and unconventional responses as the conflict evolved *Iron Fist from the Sea* Douw Steyn, Arnè G.

Söderlund, 2014 This seminal work documents the clandestine sea borne operations undertaken by South Africa's 4 Reconnaissance Commando Regiment It breathtakingly reveals the versatility and effectiveness of this elite unit which worked with a range of other South African and Rhodesian forces including the Rhodesian SAS to engage in a range of raiding and war fighting activities These operations saw the clandestine reconnaissance of harbors the sinking of enemy

shipping and the destruction of shore installations in Angola and Mozambique Just some of the tasks undertaken by this extraordinary maritime capability which totaled no more than 45 operators both black and white With unparalleled access to previously secret material the authors both of whom worked to develop 4 Recce's operating capabilities trace the origins of the Regiment back to the 1970's when the South African's determined the need for a maritime force projection capability They relate how maritime doctrine was developed within South Africa's wider Special Forces capability and how joint operational approaches were configured with the South African Navy This saw the development of a range of swimmer reconnaissance diving and boat operator training courses along with the design of specialist raiding craft and amphibious assault platforms which were originated to operate from the Navy's existing shipping and submarines All of which demonstrated the immense potential of this newly emergent force and the resourcefulness of its individual operators Required to successfully complete a grueling selection process the operators of 4 Recce were relentlessly tested to prove their physical and mental mettle not to mention their leadership skills and initiative Steyn and S derlund's chronological analysis of the operations undertaken by 4 Recce and the South African Navy is stunning to behold They impartially detail the secret and specialized actions which saw both success and failure From Cabinda on the West Coast to Tanzania on the East 4 Recce and whose existence and capability was largely kept secret even within the South African Defence Force conducted numerous clandestine raids They attacked shipping and strategic targets such as oil facilities transport infrastructure and even ANC offices And sometimes the raids did go wrong spectacularly so in one instance when two operators were killed and Captain Wynand Du Toit was captured He was later paraded in front of the world's media much to the embarrassment of the South African government This is a fascinating work and one that will enthrall anyone with an interest in Special Forces operations Profusely illustrated with many previously unpublished photographs it stands as a testament to the author's endeavors as respectively the former Operations Commander of 4 Recce and the former Commander Task Group of the SA Navy as well as the incredible operators of 4 Recce Explosive and compulsive Iron Fist from the Sea takes you right to the raging surf to the adrenaline and fear that is sea borne raiding

Wars Without End Noel Anderson, 2025-01-02 Despite their untold human suffering widespread destruction and loss and far reaching destabilization the fires of many of the world's most violent civil wars continue to burn In light of their devastating effects how can we explain the intractability of costly and stalemated yet seemingly endless civil wars By situating internal conflicts within the broader geopolitical environment in which they take place Wars Without End provides an answer It highlights the critical role of competitive intervention opposing simultaneous transfers of military assistance from different third party states to both government and rebel combatants in the dynamics duration and global prevalence of internal conflict Providing a comprehensive theoretical and empirical account of this form of external meddling it brings together battlefield bargaining dynamics the escalatory pressures of interstate competition and the systemic dimensions of geopolitical rivalry in civil wars to explain how protracted

fighting within states is linked to enduring competition between them. In doing so it challenges traditional conceptions of proxy war by deriving new propositions about the strategic logics that motivate it, offering new and productive angles on the behaviors of armed groups, the strategies of foreign interveners and the trajectories of internal wars. Combining statistical analyses with detailed case studies, drawing on fieldwork, original interviews, declassified intelligence reports and archival research, the book explains competitive intervention's pernicious effects, documents its consequences for civil wars and proposes policy prescriptions aimed at resolving some of today's most intractable conflicts.

A Far-Away War Ian Liebenberg, 2016-01-31. South Africa's armed forces invaded Angola in 1975, setting off a war that had consequences for the whole region that are still felt today. *A Far Away War* contributes to a wider understanding of this war in Angola and Namibia. The book does not only look at the war from an old South African Defence Force perspective but also gives a voice to participants on the other side, emphasising the role of the Cubans and Russians. This focus is supplemented by the inclusion of many never before published photographs from Cuban and Russian archives and a comprehensive bibliography.

Suid-Afrika se Vlootmagte 1922-2012 André Wessels, 2017-12-01. Suid-Afrika met drie landsgrense deur see omsom en 'n kuslyn van ongeveer 2 800 km is 'n maritieme moondheid. Die Suid-Afrikaanse vlootmagte vorm uiteendaar 'n belangrike deel van die land se gewapende magte en verdedigingsstelsels. Alhoewel die benaming Suid-Afrikaanse Vloot slegs sedert 1 Januarie 1951 gebruik word, dateer die geskiedenis van Suid-Afrika se vlootmagte terug tot ten minste 1922. In hierdie publikasie word die geskiedenis van die Suid-Afrikaanse vlootmagte vanaf 1922 tot 2012 op akademiese wyse geboekstaaf deurdat die ontstaan en ontwikkeling van die vlootmagte op verantwoordbare wyse beskryf en geanaliseer word. Nadat die vlootgeskiedenis vanaf 1922 tot 1945 bespreek is, word die daaropvolgende hoofstukke aan elk van die volgende tipes vaartuie asook die rolle wat hierdie vaartuie in die SAV gespeel het, gewy: fregatte, torpedojagters, mynveers en mynjagters, patrolliebote, hidrografiese opmetingskepe, gevegsteunskepe, duikbote en laastens ander vaartuie soos byvoorbeeld sperboomvaartuie. Vlootgebeure word deurgaans gevalueer teen die agtergrond van die politieke ontwikkelinge in Suid-Afrika terwyl gebeure in die internasionale arena ook toegelig word.
