**Gender and the Modern Sherlock Holmes** Nadine Farghaly, 2015-12-23 From his 1887 literary debut to his many film and television adaptations Sir Arthur Conan Doyle s Sherlock Holmes has lost none of his appeal Besides Holmes himself no character in Conan Doyle s stories proves as interesting as the astute detective s constant companion Dr Watson who somehow seems both superfluous and essential While Conan Doyle does not depict Holmes and Watson as equals he avoids presenting Watson as incompetent as he was made to appear on screen for decades A variety of reimagined Holmeses and Watsons in recent years have depicted their relationship as more nuanced and complementary Focusing on the Guy Ritchie films the BBC s Sherlock and CBS s **Elementary** this collection of new essays explores the ideas and implications behind these adaptations

**Feminism and the Politics of Literary Reputation** Charlotte Templin, 1995 Soon after its publication in 1973 *Fear of Flying* brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong s novel embraced the politics of the women s liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several

books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong s books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of Fear of Flying the invocation of a high culture low culture dichotomy to discredit How to Save Your Own Life the anatomy of literary success with Fanny Jong s reception in a postfeminist age and the trivialization of Jong s works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer Feminism and the Politics of Literary Reputation provides an excellent case study for the literary reception of women writers within a broad cultural context Templin s analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores

**Re-Indigenizing Ecological Consciousness and the Interconnectedness to Indigenous Identities** Michelle Montgomery, 2022-10-25 The authors of *Re Indigenizing Ecological Consciousness and the Interconnectedness to Indigenous Identities* share the diversity and complexities of the Indigenous context of worldviews examining relationships between humans and other living beings within

an eco conscious lens Michelle Montgomery's edited volume shows that we belong not only to a human community but to a community of all nature as well. The contributors demonstrate that the reciprocity of Indigenous knowledges is inclusive and represents worldviews for regenerative solutions and the need to realign our view of the environment as a who rather than an it. This reciprocity is intertwined as an obligation of environmental ethics to acknowledge the attributes of Indigenous knowledges as not merely a body of knowledge but as multiple layers or levels of placed based knowledges, identities and lived experiences.

**Counterculture UK - a celebration** Mark Sheerin, Coco Khan, Susan Murray, Mark Edward, Penny Pepper, Paul Quinn, Hayley Foster Da Silva, Ellen Cheshire, Charlie Oughton, Simon Smith, Jack Bright, Ben Graham, Em Ayson, Tim Burrows, Tim Garrett, Bella Qvist, 2015-11-11

What is counterculture? It's an alternative lifestyle. The ideas that spread a revolution. A movement that changes the world. This new collection of essays celebrates the incredible originality of British post war culture. British Art, film, theatre, dance, literature and music have attracted international recognition from the Angry Young Men to the Sex Pistols to Grayson Perry. Now gaming the internet and social media enable creative communities to flourish and either fight for social justice or just be entertained. Can we find the creative inspiration to succeed in a post capitalist future? a wonderfully scholarly, readable and useful treat on the perils of labelling culture. Helen Lederer

Comedienne. It is the delinquents, deviants and subversive Counterculturalists that embody the true grittiness of British Culture. Subversive and volatile beings of anarchy freeing the masses from the commodification of commercialised expression. Lurking in the margins. Mark Edwards in *Counterculture UK: A Celebration* expresses the liberated and reactionary nature of dance to mainstream culture through his euphoric exploration of free expression, movement and identity. A sensitive reflection of the youth within the northern powerhouse during socially and politically turbulent times that hyperextends itself to our present day discourses. As dance is digitised through meme and viral media so too does the Counterculturalist constantly dancing their own revolution and liberating those who dare to be free in expression.

Kristian Gath, QWERTY Theatre. This is a good introduction to a diverse range of topics, some of which of course will hold more interest than others but I think overall most are dealt with in a knowledgeable and capable way. The writers know the subjects well enough that they can provide a clear overview as well as zoom in on the specific events or people who drove the movement or changes within the different fields and I like that we get different voices for each chapter. There is nothing new or revolutionary in the book and the examples provided for most of the topics would be well known to the point of mainstream to most people but I still rather enjoyed reading the individual essays and seeing it in a context where the impact of certain events are shown on a variety of different stages. The book can be used as a short starter to the different subjects. If you want to delve deeper there is not much help in the book but as long as you are aware of that from the outset I doubt it will disappoint.

JBM 1776 Amazon 100 Reviewer. I found it interesting when the author questioned the idea of whether counter culture declines when it becomes the culture and is therefore no longer pushing against anything. I also enjoyed the way the author reminded the reader that the

new technology of today's world really helps give space for people to explore their interests, fantasies and share them with others. I wonder where that will take us in the future. Gemma Raishbrook Amazon *Historical Thinking for History Teachers* Tim Allender, 2020-07-16 Effective Australian history education has never been more important for the development of critically aware and thoughtful young people. History fosters important skills in reasoning, historical consciousness and empathy, and an appreciation of history is crucial to the development of students' understanding of the very nature of our society. This edited collection comprises contributions from leading historians, educators and practising teachers and surveys Australian history teaching today from the development of the national curriculum to fostering historical thinking and promoting effective engagement in the history classroom. The book begins with an analysis of the principles underlying the drafting of the national curriculum and features insights from the writers of the curriculum themselves. It focuses on the curriculum from primary and secondary school teaching perspectives. Part 2 examines the teaching of historical expertise, including historical thinking and value formation as well as productive assessment and the important role social history can play in the classroom. Part 3 concentrates on specific approaches to history teaching, including teacher talk, the use of historical fiction and film, digital technology and the internet as well as museums as a teaching medium. Part 4 analyses key aspects of Australian history teaching, including Indigenous perspectives, teaching citizenship and assisting the pre-service teacher in their transition to becoming a professional. Rich with insights into historical skills, historical concepts and critical thinking as well as practical guidance on translating principles into engaging classroom approaches, this is an essential reference for both pre-service and in-service history teachers and educators. Postfeminism(s) and the Arrival of the Fourth Wave Nicola Rivers, 2017-09-07 This book addresses the current resurgence of interest in feminism, notably within popular culture and media, that has led some to announce the arrival of the fourth wave. Research explores where fourth wave feminism sits in relation to those that preceded it and, in particular, how fourth wave feminism intersects with differing understandings of postfeminism. Through accessible and highly topical examples, such as the controversial actions of activist group Femen, the rising phenomenon of celebrity feminism or the assumed outdated views of feminists associated with previous waves, the relationship between differing concepts of postfeminism is illustrated. By pressing the need for an intergenerational approach to fourth wave feminism, this book encourages engaging past debates and theorists, allowing readers with an interest in the relationship between feminism and popular culture a fuller understanding of feminist theory and providing the opportunity to take stock before diving headfirst into another wave. **Digitalization of Culture Through Technology** Deepanjali Mishra, Sasmita Rani Samanta, 2022-09-21 In the era of digitalization, the world has shrunk and has succeeded in bringing people closer than expected.
