Your God Is a Devouring Fire Michael Simone SJ,2023-07-19 In the ancient Near East the distinction between the divine realm and the material world was not always clear In Mesopotamia statues kings and even cultic utensils could become gods in their own right Certain biblical traditions show this idea as well Yhwh appears as a human during visitations to Abraham and Jacob Gen 18 1 2 and 32 25 31 Yhwh also can act through objects Gen 15 17 1 Sam 5 1 5 This suggests that in Israel as in Mesopotamia a distinction between humans and gods was one of status more than ontology Throughout the ancient Near East religious literature included motifs that emphasized divine status such as power size wonder working ability and the possession of numinous qualities In Israel these divine status symbols were frequently storm motifs like cloud precipitation and fire Fire was one of the most common perhaps because being vivid and powerful it shared Yhwh s life giving transformative yet dangerous qualities In certain narratives fiery motifs accompany an embodied divine presence At other times fiery phenomena are the sole perceptible indications of divine presence As a motif of divinity fire can symbolize divine agency even functioning at a distance from Yhwh or shared with a secondary agent like an angel tool or weapon Israel s extensive use of fire in the cult gives witness to similar traditions Divine fire accompanies each new cultic inauguration in the Hebrew Bible A tradition in Leviticus suggests that this fire remained continuously burning and served as a gate that allowed God to receive portions of the cultic offering In the Hebrew Bible fire was thus a status symbol of divinity drawn from traditional storm motifs and ancient conventions of divine embodiment In its vivid ethereal appearance and power to give transform and take life it symbolized the presence and agency of Yhwh the God of Israel
