Communication Systems and Technology and Computer Engineering and Technology. *Filter Design Solutions for RF systems* Leonardo Pantoli, Vincenzo Stornelli, 2020-11-19 This Special Issue focuses on the state of the art results from the definition and design of filters for low and high frequency applications and systems. Different technologies and solutions are commonly adopted for filter definition from electrical to electromechanical and mechanical solutions from passive to active devices and from hybrid to integrated designs. Aspects related to both theoretical and experimental research in filter design, CAD modeling and novel technologies and applications as well as filter fabrication, characterization and testing are covered. The proposed research articles deal with different topics as follows: Modeling, design and simulation of filters; Processes and fabrication technologies for filters; Automated characterization and test of filters; Voltage and current mode filters; Integrated and discrete filters; Passive and active filters; Variable filters; characterization and tunability. **Solution-Focused Brief**

Therapy Cynthia Franklin, 2012 Therapy is frequently miscast as requiring an enormous amount of time and financial commitment, but helpful goal-oriented therapy can produce positive results after only a few sessions. By focusing on solutions instead of problems, SFBT asks clients to set concrete goals and to draw upon strengths in their lives that can help bring about the desired change for a preferred future. Solutions to master the Demographic Change: Ambient Assisted Living for the Elderly Franz Gosch, 2014-02-01

How will the Western World manage to master the implications of the demographic change? The answer to this may be Ambient Assisted Living (AAL) that becomes the topic of this research study. The aim of the research is to present the field of AAL with relation to home care. Furthermore, the work of the European Union (EU) in the field of AAL is presented as the EU is a major key player in enhancing research on AAL solutions that help meeting the demands of the future. Moreover, a categorization scheme of AAL solutions is developed through research evidence. Additionally, characteristics of a successful innovation given by the Diffusion of Innovations theory by E. M. Rogers are used to identify challenges for the diffusion process of AAL. Eventually, knowledge and evidence from the research conducted is used to give recommendations for the future concerning the diffusion and research directions of AAL. **Books in Print**, 1994
