Hill, Valerio Mazzoni, Nataša Stritih-Peljhan, Meta Virant-Doberlet, Andreas Wessel, 2022-05-24 Biotremology is a new and emerging discipline in biological sciences that covers all aspects of behavior associated with substrate borne mechanical waves. This volume provides state of the art reviews and technical contributions from leading experts and invited younger researchers on topics from signal production and transmission to perception in its ecological context. Reviews about the knowledge of well studied groups are complemented with perspectives on the study of less explored groups or contexts. Special attention is given to practical issues in measuring substrate borne vibrations as well as to applied biotremology. The book appeals to all those interested in communication and vibrational behavior. **Popular Science**, 2004-09 Popular Science gives our readers the information and tools to improve their technology and their world.
