I highly recommend it to pre-registered student nurses. Kris Paget, Senior Lecturer, Faculty of Health, Social Work and Education, Kingston University, UK. Government Health Care Directives provide the essential clinical evidence-based theory necessary to promote medicine adherence and each chapter provides the relevant pathophysiology which is essential to underpin the safe administration of medication therapies. The role of the nurse in medicine management with respect to patient education and the professional responsibilities of monitoring and evaluating complex medication therapies is presented in each case study.
