*Student Workbook* Beth Ann Fulgenzi, International Fire Service Training Association, Melissa Noakes, Michelle Skidgel, 2007  
 The student workbook is intended as a study aid for students who will be participating in a class based on both the *Essentials of Fire Fighting* 5th edition manual and the *Essentials of Fire Fighting and Fire Department Operations* 5th edition manual  
 Instructors may choose to integrate these workbook activities into their classes or use them as homework assignments or pre course work  
 Answers to the exercises are in the curriculum materials not in the workbook  
 The information is divided into Firefighter I and Firefighter II sections  
 Different types of questions and activities are used to reinforce different learning styles and best present the information that is being addressed  
 References to page numbers are included in the workbook so students can use the product as a self study tool by referring to the manual for correct answers  
 The use of the workbook will help improve student performances

*Essentials of Fire Fighting* Beth Ann Fulgenzi, Iftsa, International Fire Service Training Association, IFTSA Staff, Melissa Noakes, Michelle Skidgel, Fire Protection Publications, 2008  
 This study guide may be used to supplement both the basic *Essentials of Fire Fighting* 5th edition manual and the *Essentials of Fire Fighting and Fire Department Operations* 5th edition manual  
 The questions contained in this study guide are intended to help students check their own learning progress as they read the book and advance through it or a training course  
 Questions are provided in a multiple choice format because it is the most common type of question format used in fire service testing processes  
 The heavy duty wire binding allows the study guide to lay flat  
 The questions in each chapter are separated into Fire Fighter I and II sections so that students can focus on the level they are currently pursuing  
 The questions also reference the page where the relevant information may be found in the main manuals  
 The answers are listed in the back of the manual according to chapter and level Essentials of Fire Fighting Oklahoma State University, International Fire Service Training Association, Fire Protection Publications, 2002-01-01
