Wolfe, 2020-02-04 No business function is being disrupted by technology and demographics as much as recruitment Tried and true recruiting practices are no longer working New job categories are emerging traditional jobs are disappearing and employment technologies are advancing at an exponential pace An evolving definition of work and acceleration in the automation of work is only intensifying the competition for qualified workers And yet many companies continue to recruit and screen talent like it was still 1970 In *Recruiting in the Age of Googlization* Ira S Wolfe exposes the realities of automation on the future of jobs and the rapid reconstruction of the concept of work Wolfe illuminates with his down to earth writing style how exponential change will transform or eliminate most jobs and make many business models irrelevant or unrecognizable

Wolfe's examples read like science fiction jumping off the pages of everyday reality. His forecasts and solutions are simultaneously exciting and terrifying. Whether you're responsible for Human Resources or management or the average worker or student wondering what's next for his or her career. In the beginning the World Wide Web was exciting and open to the point of anarchy a vast and intimidating repository of unindexed confusion. Into this creative chaos came Google with its dazzling mission To organize the world's information and make it universally accessible and its much quoted motto Don't be evil. In this provocative book Siva Vaidhyanathan examines the ways we have used and embraced Google and the growing resistance to its expansion across the globe. He exposes the dark side of our Google fantasies raising red flags about issues of intellectual property and the much touted Google Book Search. He assesses Google's global impact particularly in China and explains the insidious effect of Googlization on the way we think. Finally Vaidhyanathan proposes the construction of an Internet ecosystem designed to benefit the whole world and keep one brilliant and powerful company from falling into the evil it pledged to avoid. *Geeks* Jon Katz, 2009-07-01
