Concept Generation for Design Creativity Toshiharu Taura, Yukari Nagai, 2012-07-26 The concept generation process seems like an intuitional thought difficult to capture and perform although everyone is capable of it It is not an analytical process but a synthetic process which has yet to be clarified Furthermore new research methods for investigating the concept generation process a very difficult task since the concept generation process is driven by inner feelings deeply etched in the mind are necessary to establish its theory and methodology Concept Generation for Design Creativity A Systematized Theory and Methodology presents the concept generation process both theoretically and methodologically Theoretically the concept generation process is discussed by comparing metaphor abduction and General Design Theory from the notions of similarities and dissimilarities Analogy blending and integration by thematic relation have been explained methodologically So far these theories and methods have been discussed independently and the relations among them have not been clarified Two newly developed research methods to investigate the concept generation process are clearly explained the explanation based protocol analysis and constructive simulation By reading Concept Generation for Design Creativity A Systematized Theory and Methodology students researchers and lecturers in design disciplines including engineering design industrial design software design CHI design education and cognitive science can obtain a clear picture of the advanced research findings and the outline of the theories and methods for concept generation Furthermore readers are expected to achieve the competence to generate new concepts

Public Service Operations Management Zoe J. Radnor, Nicola Bateman, Ann Esain, Maneesh Kumar, Sharon J. Williams, David M. Upton, 2015-07-30 How do policy makers and managers square the circle of increasing demand and expectations for the delivery and quality of services against a backdrop of reduced public funding from government and philanthropists Leaders executives and managers are increasingly focusing

on service operations improvement In terms of research public services are immature within the discipline of operations management and existing knowledge is limited to government departments and large bureaucratic institutions Drawing on a range of theory and frameworks this book develops the research agenda and knowledge and understanding in public service operations management addressing the most pressing dilemmas faced by leaders executives and operations managers in the public services environment It offers a new empirical analysis of the impact of contextual factors including the migration of planning systems founded on MRP ERP and the adoption of industrial based improvement practices such as TQM lean thinking and Six Sigma This will be of interest to researchers educators and advanced students in public management service operations management health service management and public policy studies
