**History and Hope** Brian Eggins,2015-03-02 In 1970 a group of people had what many commentators felt was a ludicrous dream that politics in Northern Ireland should not be dominated by division but should be about co operation partnership and reconciliation This dream was to become the Alliance Party of Northern Ireland In the years since this ambition to overcome tribal politics for a greater good has been preserved through good times and bad This book the first full record of the development of the Alliance Party charts that journey of hope and of history Seamus Heaney and the Emblems of Hope Karen Marguerite Moloney,2007 Explores Seamus Heaney s adaptation of the Celtic ritual known as the Feis of Tara demonstrates the sovereignty motif s continued relevance in works by Irish poets Thomas Kinsella John Montague Eavan Boland and Nuala Ni Dhomhnaill and refutes criticism that charges sexism and overemphasizes sacrifice in Heaney s poetry Provided by publisher **Nations, Language and Citizenship** Norman Berdichevsky,2018-02-22 This study evaluates the importance of language in achieving a sense of national solidarity considering factors such as territory religion race historical continuity and memory It investigates the historical experiences of countries and ethnic or regional minorities according to how their political leadership intellectual elite or independence movements answered the question Who are we The Americans British and Australians all speak English just as the French Haitians and French Canadians all speak French sharing common historical origin vocabulary and usage but each nationality s use of its language differs So does language transform a citizenry into a community or is a national language the product of ideology This work presents 26 case studies and raises three questions whether the people of independent countries consider language the most important factor in creating their sense of nationality whether the people living in multi ethnic states or as regional minorities are most loyal to the community with which they share a language or the community with which they share citizenship and whether people in countries with civil strife find a common language enough to create a sense of political solidarity The study also covers hybrid languages language revivals the difference between dialects and languages government efforts to promote or avoid bilingualism the manipulation of spelling and alphabet reform Illustrations include postage stamps banknotes flags and posters illustrating language controversies Instructors considering this book for use in a course may request an examination copy here *Milton's Places of Hope* Mary C. Fenton,2017-03-02 In early modern culture and in Milton s poetry and prose this book argues the concept of hope is intrinsically connected with place and land Mary Fenton analyzes how Milton sees hope as bound both to the spiritual and the material the internal self and the external world Hope as Fenton demonstrates comes from commitment to literal places such as the land ideological places such as the nation and sacred interior places such as the human soul Drawing on an array of materials from the seventeenth century including emblems legal treatises political pamphlets and prayer manuals Fenton sheds light on Milton s ideas about personal and national identity and where people should place their sense of power and responsibility Milton s politics and where he thought the English nation was

and where it should be heading and finally Milton's theology and how individuals relate to God     *The New Werner Twentieth Century Edition of the Encyclopaedia Britannica*, 1906     **Stonewall Jackson, Beresford Hope, and the Meaning of the American Civil War in Britain** Michael Turner, 2020-10-21 In this comprehensive examination of British sympathy for the South during and after the American Civil War Michael J Turner explores the ideas and activities of A J Beresford Hope one of the leaders of the pro Confederate lobby in Britain to provide fresh insight into that seemingly curious allegiance Hope and his associates cast famed Confederate general Thomas J Stonewall Jackson as the embodiment of southern independence courage and honor elevating him to the status of a hero in Britain Historians have often noted that economic interest political attitudes and concern about Britain's global reach and geostrategic position led many in the country to embrace the Confederate cause but they have focused less on the social cultural and religious reasons enunciated by Hope and ostensibly represented by Jackson factors Turner suggests also heightened British affinity for the South During the war Hope noticed a tendency among British people to view southerners as heroic warriors in their struggle against the North He and his pro southern followers shared and promoted this vision framing Jackson as the personification of that noble mission and raising the general's profile in Britain so high that they collected enough funds to construct a memorial to him after his death in 1863 Unveiled twelve years later in Richmond Virginia the statue stands today as a remarkable artifact of one of the lesser known strands of British pro Confederate ideology Stonewall Jackson Beresford Hope and the Meaning of the American Civil War in Britain serves as the first in depth analysis of Hope as a leading pro southern activist and of Jackson's reputation in Britain during and after the Civil War It places the conflict in a transnational context that reveals the reasons British citizens formed bonds of solidarity with the southerners whom they perceived shared their social and cultural values     **Rooted in Hope: China - Religion - Christianity Vol 2** Barbara Hoster, Dirk Kuhlmann, Zbigniew Wesolowski, 2017-03-27 This Festschrift is dedicated to the former Director and Editor in chief of the Monumenta Serica Institute in Sankt Augustin Germany Roman Malek S V D in recognition of his scholarly commitment to China The two volume work contains 40 articles by his academic colleagues companions in faith confreres as well as by the staff of the Monumenta Serica Institute and the China Zentrum e V China Center The contributions in English German and Chinese pay homage to the jubilarian's diverse research interests covering the fields of Chinese Intellectual History History of Christianity in China Christianity in China Today Other Religions in China Chinese Language and Literature as well as the Encounter of Cultures     **The Day Hope and History Rhymed in East Timor** Pat Walsh, 2019-07-24 In 1999 in a remote corner of the world something almost miraculous happened After 500 years of colonialism the political stars finally aligned and the people of Timor Leste written off as losers in the face of irreversible odds successfully voted for freedom Twenty years on Pat Walsh remembers the day like it was yesterday In this colourful collection of stories about Timor Leste he also draws on his many years living in Dili to recall with wry affection the city's traffic roosters and a motley array of characters The latter range

from a Norwegian bishop to a cockfight promoter an Australian called Dagg a honey seller a cat with only six lives a girl called Menahaha and two intellectual giants whose contributions to their human rights are largely unknown in Timor Leste Believing that the past is a friend to lean on not an enemy he also takes the opportunity to remind the Indonesian military of their failings But in the same vein he also laments the futile loss of Indonesian lives the damage to Indonesia s dignity and the subversion of the rules based international order that marked the 24 year occupation Written with touches of humour The Day Hope and History Rhymed in East Timor is a personal insightful and sometimes whimsical set of narratives that fills a gap between the academic and the trivial on this endearing but improbable new nation *The Bible of Every Land*

The Condition of the Working-Class in England in 1844 with a Preface written in 1892 Friedrich Engels,2019-11-19 In The Condition of the Working Class in England in 1844 Friedrich Engels delivers a searing examination of the socio economic plight faced by the working class during the industrial revolution Written with a blend of passionate rhetoric and meticulous observation the text employs rich descriptive language to depict the harsh realities of labor living conditions and the pervasive social injustices of 19th century England Engels contextualizes his observations within a broader critique of capitalism making a profound case for the necessity of social reform and the establishment of a classless society well ahead of its time in literary style and political thought Friedrich Engels a German philosopher and social scientist co authored The Communist Manifesto with Karl Marx where their revolutionary ideas flourished His experiences in England interacting with the working class and observing its struggles greatly influenced his comprehension of capitalist society Engels s background as a businessman s son paired with deep rooted concern for the oppressed compelled him to highlight these urgent class issues through his powerful writing established within the broader framework of Marxist theory This seminal work is essential reading for anyone interested in social justice labor rights and the historical roots of class struggle Engels s compelling arguments not only offer insight into the working class of the past but also resonate with contemporary discussions on inequality and capitalism Engage with this vital text to understand the ongoing relevance of Engels s observations and their implications for modern society **The Condition of the Working-Class in England in 1844**

William Bramley-Moore,1905 *Ireland's Hope: The "peculiar theories" of James Fintan Lalor* James P. Bruce,2020-10-06 In 1847 and 1848 a little known farmer named James Fintan Lalor wrote a series of newspaper articles in which he outlined his vision for Ireland after the Great Famine Although they have been reprinted and republished many times since until now there has been no systematic study of the principles and proposals that Lalor expounded In this book the author considers Lalor s brief career as a writer and offers new insights into his treatment of the national and land questions By elucidating

Lalor's ideas on these questions exploring possible influences on his thinking and assessing the impact of his writings on his contemporaries the author seeks to address what he regards as two deficiencies in the historiography The first of these is the tendency to assign only a minor supporting role to Lalor during the brief heyday of Young Ireland Academic studies typically portray him as little more than a catalyst in the radicalisation of figures like John Mitchel rather than as a profoundly original thinker in his own right The second issue is the commonly held perception of Lalor's proposals on land tenure as foreshadowing the creation of a peasant proprietary later in the century The author argues that Lalor advocated a much more radical plan that would link his two primary objectives the creation of a sovereign Irish republic and transfer of control over landholding from a small number of landlords to the entire Irish people By comparing and contrasting Lalor's theories with those of earlier figures such as Thomas Paine and James Bront  re O'Brien this ground breaking book broadens the perspective on Lalor and his writings beyond the context of Irish nationalism As the author concludes Lalor's unique contribution to Irish radical thought merits a more prominent place in nineteenth century intellectual history than it has hitherto received This book will be of great value to anyone interested in Irish history since 1800 especially in the areas of the Great Famine the Young Ireland movement and the Land War

Lane, 2005-01-26 Today more and more people are asking questions about human social and cosmic destiny Does the universe have a purpose What is the point of historical existence What happens at death What can we hope for Is it possible to talk meaningfully about another world In *Keeping Hope Alive* Dermot A Lane addresses these and other questions The author sets out to develop a theology of hope rooted in both human experience and the Christian tradition In discussing Christian belief Lane pays particular attention to the death and resurrection of Christ as both the pivotal eschatological event and the fundamental ground of Christian hope At the same time he deals with contemporary human experience addressing questions arising from the Marxist critique of Christianity the nuclear threat the ecological crisis and the apparent emptiness of much post modern thinking Dermot Lane confronts difficult issues such as death heaven hell purgatory resurrection reincarnation and the possibility of universal salvation with realism and honesty The end result is a new theological synthesis that takes account of recent developments in anthropology feminism and cosmology This carefully crafted book will be of value to all who are asking searching questions about the meaning of living and dying
