Douglas Walton, 1998 A vital contribution to legal theory and media and civic discourse In the 1860s northern newspapers attacked Abraham Lincoln s policies by attacking his character using the terms drunk baboon too slow foolish and dishonest Steadily on the increase in political argumentation since then the argumentum ad hominem or personal attack argument has now been carefully refined as an instrument of oppo tactics and going negative by the public relations experts who craft political campaigns at the national level In this definitive treatment of one of the most important concepts in argumentation theory and informal logic Douglas Walton presents a normative framework for identifying and evaluating ad hominem or personal attack arguments Personal attack arguments have often proved to be so effective in election campaigns for example that even while condemning them politicians have not stopped using them In the media in the courtroom and in everyday confrontation ad hominem arguments are easy to put forward as accusations are difficult to refute and often have an extremely powerful effect on persuading an audience Walton gives a clear method for analyzing and evaluating cases of ad hominem arguments found in everyday argumentation His analysis classifies the ad hominem argument into five clearly defined subtypes abusive direct circumstantial bias poisoning the well and tu quoque you re just as bad arguments and gives methods for evaluating each type Each subtype is given a well defined form as a recognizable type of argument The numerous case studies show in concrete terms many practical aspects of how to use textual evidence to identify and analyze fallacies and to evaluate argumentation as fallacious or not in particular cases **Scare Tactics** Douglas Walton, 2013-06-29 Scare Tactics the first book on the subject provides a theory of the structure of reasoning used in fear and threat appeal argumentation Such arguments come under the heading of the argumentum ad baculum the argument to the stick club

traditionally treated as a fallacy in the logic textbooks The new dialectical theory is based on case studies of many interesting examples of the use of these arguments in advertising public relations politics international negotiations and everyday argumentation on all kinds of subjects Many of these arguments are amusing once you see the clever tactic used others are scary Some of the arguments appear to be quite reasonable while others are highly suspicious or even outrageously fraudulent In addition to the examples taken from logic textbooks other cases treated come from a variety of sources including political debates legal arguments and arguments from media sources like magazine articles and television ads The purpose of this book is to explain how such arguments work as devices of persuasion and to develop a method for analyzing and evaluating their reasonable and fallacious uses in particular cases The book shows how such arguments share a common structure revealing several distinctive forms of argument nested within each other Based on its account of this cognitive structure the new dialectical theory presents methods for identifying analyzing and evaluating these arguments as they are used in specific cases The book is a scholarly contribution to argumentation theory It is written in an accessible style and uses many colorful and provocative examples of fear and threat appeal arguments that are suitable for classroom discussions The matters treated will be of interest to professionals and students in law critical thinking advertising speech communication informal logic cognitive science rhetoric and media studies

The Question of Being in Husserl's Logical Investigations J. Mensch, 2013-03-14 This study proposes a double thesis The first concerns the *Logische Untersuchungen* itself We will attempt to show that its statements about the nature of being are inconsistent and that this inconsistency is responsible for the failure of this work The second concerns the *Logische Untersuchungen*'s relation to the *Ideen* The latter we propose is a response to the failure of the *Logische Untersuchungen*'s ontology It can thus be understood in terms of a shift in the ontology of the *Logische Untersuchungen* a shift motivated by the attempt to overcome the contradictory assertions of the *Logische Untersuchungen* In this sense our thesis is that in the technical meaning that Husserl gives the term the *Logische Untersuchungen* and the *Ideen* can be linked via a motivated path We can by way of an introduction clarify our theses by regarding three elements The first is the relation of epistemology to ontology The second is the notion of motivation as Husserl conceives the term The third is the fundamental distinctions that are to be explained via the notion of motivation 1 We should begin by remarking that the goal of the *Logische Untersuchungen* is explicitly epistemological it is that of answering the cardinal question of epistemology the question concerning the objectivity of knowledge LU Tub ed I 8 F p 56V For Husserl his other questions i e

Logic: A History of its Central Concepts Dov M. Gabbay, Francis Jeffry Pelletier, John Woods, 2012-12-31 The Handbook of the History of Logic is a multi volume research instrument that brings to the development of logic the best in modern techniques of historical and interpretative scholarship It is the first work in English in which the history of logic is presented so extensively The volumes are numerous and large Authors have been given considerable latitude to produce chapters of a length and a level of detail that would lay fair claim on the ambitions of the project to be a definitive research work Authors have been carefully selected with this aim in mind They and the Editors join in the conviction that a knowledge of the history of logic is nothing but beneficial to the subject s present day research programmes One of the attractions of the Handbook s several volumes is the emphasis they give to the enduring relevance of developments in logic throughout the ages including some of the earliest manifestations of the subject Covers in depth the notion of logical consequence Discusses the central concept in logic of modality Includes the use of diagrams in logical reasoning *Library of Congress Catalog* Library of Congress, 1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 *Across the Lines of Disciplines* Frans H. van Eemeren, Rob Grootendorst, J. Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1972 **On Reasoning and Argument** David Hitchcock, 2017-04-06 This book brings together in one place David Hitchcock's most significant published articles on reasoning and argument In seven new chapters he updates his thinking in the light of subsequent scholarship Collectively the papers articulate a distinctive position in the philosophy of argumentation Among other things the author develops an account of material consequence that permits evaluation of inferences without problematic postulation of unstated premises updates his recursive definition of argument that accommodates chaining and embedding of arguments and allows any type of illocutionary act to be a conclusion advances a general theory of relevance provides comprehensive frameworks for evaluating inferences in reasoning by analogy means end reasoning and appeals to considerations or criteria argues that none of the forms of arguing ad hominem is a fallacy describes proven methods of teaching critical thinking effectively *Classical Logic and Its Rabbit-Holes* Nelson P. Lande, 2013-11-15 Many students ask What is the point of learning formal logic This book gives them the answer Using the methods of deductive logic Nelson Lande introduces each new element in exquisite detail as he takes students through example after example proof after proof explaining the thinking behind each concept Shaded areas and appendices throughout the book provide explanations and justifications that go beyond the main text challenging those students who wish to delve deeper and giving instructors the option of confining their course to the basics or expanding it when they wish to more rigorous levels Lande encourages students to think for themselves while at the same time providing them with the level of explanation they need to succeed It is a rigorous approach presented in a style that is informal engaging and accessible Students will come away with a solid understanding of formal logic and why it is not only important but also interesting and sometimes even fun It is a text that brings the human element back into the teaching of logic Hans Halvorson Princeton University *Heart of the Living God* Michael G. Maness, 2004-06-23 Maness asks us to tie up our sneakers for we are going to have some fun as we hike into the Grand Canyon of Love Love is the treasure of life It is Love all the way Nothing else really matters outside of Love Best of all our Love will only get better in heaven The treasured ability to have loving relationships is God's gift to us in our Imago Dei

image of God we all share Likewise what we know of Love this side of heaven is but a dusty image of what God experiences I want to get personally involved says Maness Can we have a free will relationship with anyone even God if all of what we do and think is settled I dont think so Love is greater than that and I shall prove that and that is indeed a Grand Canyon Manes brings some of the brain splitting complexities of this to light with good humor introduces dynamic foreknowledge and challenges Classical Theisms avoidance of Love And he exposes some foul play in the process Thats the first half of the book For those wanting to strike out on their own wanting to see more of the depth and diversity of the Grand Canyon the second half contains reviews of about 60 major authors a 4 000 Abysmal Bibliography and a huge index to just about everything in the book Maness has thrown a gauntlet before the Classical Theists So tie up your sneakers and take a hike with Michael G Maness as he walks with you into the Grand Canyon see more at www.PreciousHeart.net
