Certified Information Security Manager (CISM) Certification: A Practical Study Guide Anand Vemula, This comprehensive study guide is designed for professionals aiming to achieve the Certified Information Security Manager (CISM) certification, a credential recognized globally for its focus on information security management. The book provides an in-depth exploration of the core domains covered in the CISM exam, including Information Security Governance, Risk Management, Security Program Development and Management, and Incident Management. The guide begins with an overview of the CISM certification, emphasizing its importance in today's cybersecurity landscape where organizations face increasing threats and regulatory pressures. It details the certification process, including registration, examination scheduling, and the application for certification, providing candidates with clear steps to follow. In subsequent sections, the book delves into each domain, presenting critical concepts, frameworks, and best practices essential for effective information security management. The first domain, Information Security Governance, focuses on aligning security initiatives with business objectives and developing relevant policies and standards. The Risk Management domain emphasizes asset identification, risk assessment, and compliance with legal frameworks crucial for protecting organizational information. The guide also addresses the practical aspects of developing and managing an information security program, including resource allocation, training, and awareness, and performance measurement. Incident Management is covered extensively, detailing strategies for incident identification, response planning, and post-incident analysis to mitigate future risks. Finally, the book highlights real-world applications of the CISM certification across various industries, including finance, healthcare, and government, illustrating how CISM principles can effectively address common security challenges. By equipping professionals with the knowledge and skills necessary for
