The majority of the papers herein deal with important topics of al-Ghazālī's work which demonstrate his rational treatment of the Qur'an and major subjects of Islamic theology and everyday life of Muslims. Some other contributions address al-Ghazālī's sources and how his intellectual endeavors were later received by scholars who had the same concern of reconciling religion and rationality within Islam, Christianity and Judaism. With contributions by Binyamin Abrahamov, Hans Daiber, Ken Garden, Avner Giladi, Scott Girdner, Frank Griffel, Steven Harvey, Alfred Ivry, Jules Janssens, Taneli Kukkonen, Luis Xavier Lopez Farjeat, Wilferd Madelung, Yahya M Michot, Yasien Mohamed, Eric Ormsby, M Saitzervarl and Hidemi Takahashi. *Africa South of the Sahara 2003* Europa Publications, 2002-10-31 A one volume library of essential and comprehensive data on all the countries of sub-Saharan Africa including essays on regional issues, statistical surveys and directories of invaluable contact names and addresses. *The Islamic Quarterly*, 1999 OECD Reviews of Innovation Policy: Kuwait 2021 OECD, 2021-12-10 The slowdown in market demand for oil is putting increasing pressure on Kuwait's current economic and social model. Author and Title Index*, 1975 **The Arms Race in the Middle East** Mohammad Eslami, Alena Vysotskaya, Guedes Vieira, 2023-07-28 This edited volume discusses security policy and strategic policymaking in the Middle East region. Due to its unique geopolitical, geoeconomic and geostrategic features, the Middle East region has been confronted with challenging security issues. Combined with a lack of an efficient regional security regime, this has led to the formation of a full-fledged arms race. This book draws together contributions from international experts to address the factors that have been contributing to the ongoing formation of an arms race in the Middle East as well as the impact of this phenomenon on the regional and global security environment. The book is organized in three sections. The first section outlines the contemporary dynamics of the arms race in the Middle East by focusing on its most recent dynamics and their implications for regional and international security. The second section conducts systematic

analysis of case studies of country specific drivers of the arms race The third and final section examines the role of external actors in the arms race evaluating both the responses of regional actors to external interventions as well as the implications of the arms race for extra regional countries *World Agricultural Economics and Rural Sociology Abstracts* ,1983
