Channeling Moroccanness Becky L. Schulthies, 2020-12-01 Honorable Mention 2022 L Carl Brown AIMS Book Prize in North African Studies What does it mean to connect as a people through mass media This book approaches that question by exploring how Moroccans engage communicative failure as they seek to shape social and political relations in urban Fez Over the last decade laments of language and media failure in Fez have focused not just on social relations that used to be and have been lost but also on what ought to be and had yet to be realized Such laments have transpired in a range of communication channels from objects such as devotional prayer beads and remote controls to interactional forms such as storytelling dress styles and orthography to media platforms like television news religious stations or WhatsApp group chats Channeling Moroccanness examines these laments as ways of speaking that created Moroccanness the feeling of participating in the ongoing formations of Moroccan relationality Rather than furthering the discourse about Morocco's conflict between liberal secularists and religious conservatives this ethnography shows the subtle range of ideologies and practices evoked in Fassi homes to calibrate Moroccan sociality and political consciousness

Jihadism Transformed

Simon Staffell,Akil Awan,2016-12-01 Jihadist narratives have evolved dramatically over the past five years driven by momentous events in the Middle East and beyond the death of bin Laden the rise and ultimate failure of the Arab Spring and most notably the rise of the so called Islamic State For many years al Qaeda pointed to an aspirational future Caliphate as their utopian end goal one which allowed them to justify their violent excesses in the here and now Islamic State turned that aspiration into a dystopic reality and in the process hijacked the jihadist narrative breathing new life into the global Salafi Jihadi movement Despite air strikes from above and local disillusionment from below the new caliphate has stubbornly persisted and has been at the heart of ISIS's growing global appeal This timely collection of essays examines how jihadist narratives have changed globally adapting to these turbulent circumstances Area and thematic specialists consider transitions inside the Middle East and North Africa as well as in South Asia sub Saharan Africa and Europe As these analyses demonstrate the success of the ISIS narrative has been as much about resonance with local contexts as it has been about the appeal of the global idea of a tangible and realised caliphate

The Islamic Interfaith Initiative John Andrew Morrow,2021-09-15 When ISIS reared its ugly head in the last decade God had already prepared a vaccine against the contagion of extremism that created it the re discovery of the Covenants of the Prophet Muhammad with the Peoples of the Book which firmly place the actions of groups like ISIS under the curse of God and His Prophet This was largely due to the exhaustive scholarship of Dr John Andrew Morrow leading to the publication in 2013 of The Covenants of the Prophet Muhammad with the Christians of the World Not only was this a scholarly triumph but it also inaugurated an international interfaith movement throughout the Muslim world known as the Covenants Initiative which culminated in the acquittal of the Christian woman Asia Bibi on charges of blasphemy by the Pakistani Supreme Court in 2018 The book was quoted by the justices in their decision This volume of speeches articles and interviews is a chronicle of the first activist phase of the Covenants Initiative proving that socially committed scholarship is alive and well in the twenty first century

[The School of Hillah and the Formation of Twelver Shi'i Islamic Tradition](#) Aun Hasan Ali,2023-06-15 Against the background of long standing narratives in which Twelver Shi ism is viewed as fundamentally authoritarian The School of Hillah and the Formation of Twelver Shi i Islamic Tradition builds upon recent scholarship in the fields of Religious Studies Anthropology and History to argue that Twelver Shi ism is better understood as a discursive tradition At a conceptual level this solves the basic problem of how to integrate the extraordinary diversity of Twelver Shi ism across time and space into a single historical category without engaging in a normative assessment of its underlying essence Furthermore in light of this conception of tradition the School of Hillah stands out as a seminal period in the archive of Twelver Shi ism though it has seldom been recognized as such in European language scholarship Insofar as it gave birth to a conversation that would prove capable of encompassing the dynamism of Twelver Shi ism the School of Hillah should be considered the formative period of Twelver Shi i tradition Moreover when the tradition is conceptualized in this manner it is a bulwark against the very authoritarianism by which Twelver Shi ism has been characterized for so long
