

**FORENSIC ANTHROPOLOGY STUDY
GUIDE: Spring 2018 Exam 1**

© 2007 The Authors
Journal compilation © 2007 Blackwell Publishing Ltd

1. **Introduction:** This document provides a comprehensive overview of the project's objectives, scope, and deliverables. It outlines the project's purpose, the roles and responsibilities of the team members, and the timeline for completion.
2. **Project Objectives:** The primary objective of this project is to develop a new software application that streamlines the workflow of the sales department. The secondary objectives include improving data accuracy, reducing manual errors, and enhancing the overall efficiency of the sales process.
3. **Project Scope:** The project scope is defined by the following criteria: the software will be developed for the Windows operating system, it will support up to 10 users, and it will be deployed within the next 12 weeks. The project will not include the development of a mobile application or the integration with existing CRM systems.
4. **Project Organization:** The project is managed by the Project Manager, who is responsible for the overall direction and coordination of the project. The team consists of the Project Manager, a Business Analyst, a Software Developer, and a QA Tester. Each team member has specific responsibilities and is accountable for their respective tasks.
5. **Project Deliverables:** The project deliverables include the following: a detailed project plan, a functional software application, a user manual, and a final project report. The project plan will be updated regularly to reflect the progress of the project. The software application will be developed in phases, with each phase being tested and deployed. The user manual will be created in parallel with the software development. The final project report will provide a summary of the project's outcomes and lessons learned.
6. **Project Risks:** The project risks are identified and categorized as follows: technical risks, resource risks, and schedule risks. Technical risks include the complexity of the software requirements and the potential for integration issues. Resource risks include the availability of team members and the potential for skill gaps. Schedule risks include the potential for delays in the development process and the impact on the overall project timeline.
7. **Project Communication:** The project communication plan is designed to ensure that all team members are kept informed of the project's progress and any changes. Regular meetings will be held to discuss the project's status and to address any issues. The Project Manager will also provide regular updates to the stakeholders. The communication plan will be reviewed and updated as needed.
8. **Project Conclusion:** The project is expected to be completed within the specified timeline and budget. The successful completion of the project will result in a new software application that will significantly improve the efficiency of the sales department. The project team is committed to delivering a high-quality product that meets the needs of the business.

Forensic Anthropology Study Guide

Arturo Cuomo

Forensic Anthropology Study Guide:
