age and it recommends that the Government should reconsider the Tomlinson proposals for a broader diploma based system for 14-19 year old students based on the International Baccalaureate. This would ensure that students receive a more rounded education and are not made to over specialise before they are able to see the merits of studying science and mathematics. Concerns are also raised about the shortage of science teachers particularly specialist physics and chemistry teachers, the quality of careers advice in schools and the importance of practical science in schools. The funding of science and discovery centres Great Britain: Parliament: House of Commons: Science and Technology Committee, 2007-10-22. Examines the role and effectiveness of science centres, how science centres are co-ordinated and organised and how they are funded. This report also welcomes the offer by the Department for Innovation, Universities and Skills to take responsibility for science centres. *National Curriculum* Great Britain. Parliament.
