Paper 1 - UK Geographical Issues - Fieldwork - Work Booklet

Topic

1. Suggest a simple question or hypothesis for the students to explore in their investigation.

The earthquake in Haiti destroyed the primary water supply from the river?

The first part of this response is good although there is a bit of a mix of words to show that, which could be improved by making the point clear and giving a second mark for the point. The second part of this response is good as it shows the link and the subsequent work involved. 2 marks

Do not leave things unsimplified. Having more than one hypothesis is better - why not try this approach?
