Redescribing Horizontal Geographies Olaf Kühne, 2024-06-08 The first book in the series provides the concept of a theoretical redefinition of horizontal geographies These denote the spatial syntheses as undertaken in various disciplines whether as regional studies area studies new regional geography and many more The basis of the redescription is philosophical neopragmatism which has occasionally been taken up in the spatial sciences but has never been differentiated into a theory driven empirical research program This development of the research program guides the present book Philosophical neopragmatism especially as conceptualized by Richard Rorty focuses in particular on contingency of society self and language which also allows spatial syntheses to be understood not as images of reality but as contingent proposals for redescribing spaces As a result of the complexity of spatial processes their horizontal geographic study requires a triangulation of theories methods researcher perspectives data and the involvement of people without expert special knowledge To highlight the contingency of the spatial syntheses the presentation of the results here especially graphic and cartographic resorts to the attitude of irony Regarding the six levels of triangulation neopragmatism acts as a meta theoretical orientation framework Against the background of the complexity of spatial developments on the one hand and to operationalize Rorty's principle of private self creation and public solidarity on the other hand Ralf Dahrendorf's concept of life chances is drawn upon Especially in the differentiation of this concept made in this book it serves on the one hand for an understanding access of the also spatial expression of options and ligatures and on the other hand it offers a normative framework for the evaluation of socio spatial developments The reference to neopragmatic studies on spatial syntheses conducted to date and evaluated in this book shows the potential of the approach elaborated here in conceptual detail for the first time

African Voices Israel Oluwole Olofinjana, 2017-08-30 Introducing an emerging academic field known as African British Theologies this publication explores the significant presence of African Christianity in Britain Featuring contributions from twelve scholarly African pastors engaged in ministry and theology in Britain this book is a

unique expression of theology from African Christians contextualizing the gospel for a multicultural British society Under three key areas of missiology contextual constructive theology and transformative practical theology the contributors interact with topics such as reverse missiology African pneumatology prosperity gospel and urban mission This book rigorously examines new contexts of Christianity and articulates new theological perspectives that are required to understand twenty first century ministry not only in urban Britain but also across the world Things that Matter William L. Randall,Matte Robinson,2023-11-30 Many of us have particular things in our lives photographs paintings old letters books furniture jewellery or clothing that hold special meaning for us Often they correspond to pivotal memories and can be central to our sense of self and our life narratives all the more so as we age Things That Matter sheds important light on the intricate intertwining of mementos with stories and vice versa in most people s lives The book explores the significance of cherished objects within the life stories of nine participants in a qualitative study of the links between reminiscence and resilience in later life The researchers who conducted the study represent a variety of fields including gerontology social work ministry nursing literature and education The book details how life stories can be fraught with a wide range of insights and questions from the memories that get stirred up as people embark on the process of life review prompted by the challenges and changes of aging Shedding light on the complex emotional psychological and spiritual findings of the study Things That Matter ultimately reveals the intricacy of personal narrative and the incredible ways in which things and stories are interwoven in our lives over time **Beyond Narrative Coherence** Matti Hyvärinen,2010 Beyond Narrative Coherence reconsiders the way we understand and work with narratives Even though narrators tend to strive for coherence they also add complexity challenge canonical scripts and survey lives by telling highly perplexing and contradictory stories Many narratives remain incomplete ambiguous and contradictory Obvious coherence cannot be the sole moral standard the only perspective of reading or the criterion for selecting and discarding research material Beyond Narrative Coherence addresses the limits and aspects of narrative dis cohering by offering a rich theoretical and historical background to the debate Limits of narrative coherence are discussed from the perspective of three fields of life that often threaten the coherence of narrative illness arts and traumatic political experience The authors of the book cover a wide range of disciplines such as psychology sociology arts studies political science and philosophy *Researching Culture* Pertti Alasuutari,1995-09-27 Gives a basic account of methodology and cultural studies *Sizonqoba! Outliving AIDS in Southern Africa* Ngcaweni, Busani,2017-04-11 The aim of this book is to better understand the phenomenon of HIV in a country that has faced the fullest might of the disease and yet after first faltering has made more progress than any other country in the world in its response to HIV It aims to reflect the complexity of this narrative and the range of widely differing insights by featuring what is likely the largest number of contributors in a single publication on the subject in South Africa as well as a full spectrum of specialised areas ranging from high end science to personal reflections **Employment Relations in the Voluntary Sector** Ian

Cunningham,2012-08-06 This new book addresses the topical issues surrounding employment relations in UK voluntary organizations that operate within the quasi market of social care Combining an analysis of the established literature with in depth qualitative field work Ian Cunningham explores the nature of power relations between state and voluntary sector implications of employment policy and subsequent pressures for change in pay and working conditions the influence of trade unions in the sector management s capacity to resist external pressure and employee responses to this environment Cunningham s focus on the employment relationship in this sector is unique highlighting a complex and variable pattern of interdependence and subordination between government agencies and voluntary sector employers The author examines the way in which financial pressures from the state coupled with weak unionization diminish working conditions arguing that employee morale will not be sustained if the voluntary sector fails to maintain its autonomy and minimize its dependency on state funding

SUCCESSFUL MANUFACTURING TRANSFORMATION Dr Azlan Nithia,2024-04-03 This book is a good practical handbook for every manufacturing leaders and it is based on proven and successful manufacturing transformation practices on how to get a manufacturing organization out of an extreme operational crisis or nearing a closure Transforming an organization in crisis and turning it around from a manufacturing crisis and finally to be able to achieve global competitiveness in manufacturing operations in any country This book is based on extensive work experience learning from failures and successes experimentations and proven approaches by the author himself It references to the author s various successful manufacturing transformations achieved at large scale multi national manufacturing organizations and how the author re positioned those organizations into becoming a globally competitive operation If an organization is always thinking about global competitiveness and constantly driving its organization towards world class efficiencies delivering the sustainable competitiveness in cost and with the best lead times it is almost impossible to get eliminated by any other competitions globally The manufacturing organizations that slowly starts to slip away from being at world class efficiencies and its metrics start losing its global competitiveness in cost lead time and productivity will not be able to compete with the global competitions These are the organizations that will easily get into a manufacturing crisis loses its competitiveness and finally it loses its total business to its competitors These companies will ultimately get wiped out of the business This book is also about reimagining the manufacturing industries to achieve global competitiveness by the successful adoption of greater digital technologies of a connected factory to increase efficiency speed and agility This requires the ability to be able to rapidly transit into the new smart manufacturing paradigm with how to achieve the status of Smart Manufacturing Factory of the Future and to be quick in responding to the demanding market changes with the digitally connected operations and the marketplace A detailed step by step approach is clearly explained and how to overcome those implementation challenges

Achieve Manufacturing Excellence Lean and Smart Manufacturing Dr Azlan Nithia,2019-06-07 The new industrial revolution in manufacturing is primarily focused on the implementation of smart manufacturing technologies leading to the

factory of the future This will require the machines robots and processes to be digitally connected to deliver real time analysis and monitor them for performance and efficiencies To take advantage of these important digital technologies the manufacturing processes and equipment must be operating very efficiently predictable and the processes always need to be performing at their optimal levels The factories of the future will have smart innovations operationalized with transformational digital technologies new business models and processes that will increase profits reduce lead time reduce human interventions decrease product costs enhance the consumer experience and increase global market share by being relevant and responsive to any digital market disruptions The lean manufacturing principles must be the foundation and constantly be strengthened so that smart manufacturing applications can be efficiently implemented to deliver the required manufacturing productivity and achieve customer responsiveness To become a customer driven company the companies must become a solution provider and constantly improve the end to end supply chain The goal of smart manufacturing is the value creation for the consumers and the advanced technological innovations to deliver sustainable top line growth for the companies and to gain a bigger market share
