

TECH

The word "TECH" is rendered in a bold, three-dimensional, metallic blue font. The letters have a brushed metal texture and are illuminated from the top, creating bright highlights on their upper surfaces and deep shadows on their undersides. Surrounding the text is a network of thin, glowing blue lines that resemble circuit traces or data paths, extending outwards from the letters. Scattered throughout the background are numerous small, white, star-like dots, giving the impression of a digital or cosmic space.

macroeconomic analysis and policy The NBER Macroeconomics Annual brings together leading scholars to discuss five research papers on central issues in contemporary macroeconomics First Andrea Eisfeldt Antonio Falato and Mindy Xiaolan document the rise of a new class of worker that receives part of its labor income as equity based compensation its role in the recent decline in the labor share of income and implications for the returns to skilled labor and the implied capital skill complementarity Next Michael Bauer and Eric Swanson focus on monetary policy shocks and argue the correlation between estimated monetary surprises and previously available information can be explained by uncertainty about the parameters of the monetary policy rule Using new data and methods they find effects of monetary policy on macroeconomic variables that are much larger than previously estimated Job Boerma and Loukas Karabarbounis provide a framework for quantitatively exploring the gap in wealth between White and Black Americans over the past 150 years and examine the effectiveness of reparations as a tool for closing this gap Guido Menzio considers workers who do not have rational expectations and whose stubborn beliefs change the response of wages to technology shocks resulting in sticky wages He finds that the larger the fraction of workers with stubborn beliefs the more volatile unemployment is Finally Rishabh Aggarwal Adrien Auclert Matthew Rognlie and Ludwig Straub investigate the growth particularly in the United States of private savings current account deficits and fiscal deficits after 2020 They argue that fiscal deficits lead to large and persistent increases in private savings and current account deficits

Waterfront Toronto the government sponsored organization behind the contest There were hundreds more acres of undeveloped former port lands nearby that kept creeping into conversation with Sidewalk and more questions were emerging than answers about how much the public would actually benefit from the Alphabet owned company's vision for the high tech neighbourhood and the data it could harvest from the people living there Alarm bells began ringing in the city's corridors of power and activism To Torontonians accustomed to big promises with little follow through the fiasco that unfolded seemed at first like just another city building sideshow But the pained battle to reel in the power of Sidewalk Labs became a crucible moment in the worldwide battle for privacy rights and against the extension of Big Tech's digital might into the physical world around us With extensive contacts on all sides of the debacle O Kane tells a story of global consequence fought over a small forgotten parcel of mud and pavement taking readers from California to New York to Toronto to Berlin and back again In the tradition of extraordinary boardroom dramas like *Bad Blood* and *Super Pumped* Sideways vividly recreates the corporate drama and epic personalities in this David and Goliath battle that signalled to the world that all may not be lost in the effort to contain the rapidly growing power of Big Tech
