

Introduction To Business Final Exam Questions

1. What are the key functions of setting objectives?
Organizational objectives are the end states or targets that managers aim for, while plans are the means by which managers hope to hit the desired targets
2. Define strategic plans
Strategic plans focus on the broad future of the organization and incorporate both external environmental demands and internal resources into the actions managers need to take to achieve the long-term goals of the organization
3. What are the key elements of operational plans?
 - Operational plans translate tactical plans into specific goals and actions for small units of the organization and focus on the near term
 - The near term is typically 12 months or less
 - These plans are the least complex of the three and rarely have a direct impact beyond the department or unit for which the plan was developed
4. What are the key issues that managers at the corporate level focus on relative to planning?
Corporate-level executives would primarily focus on questions such as the following:
 - What industries would we get into or out of?
 - What markets should the firm be in?
 - In which businesses should the corporation invest money?
5. What type of plans do people at the business level primarily undertake?
At this level, managers focus on determining how they are going to compete effectively in the market.
6. Why is forecasting critical to the planning process?
Forecasts are or can be made about virtually every critical element in the environment that managers believe could affect the organization or their area of responsibility
7. What is benchmarking and what role does it play in planning?
 - Benchmarking is the investigation of the best results among competitors and non-competitors and the practices that lead to those results
 - In terms of results, managers might assess competitors that have the highest revenue-to-employee ratio as a means of assessing productivity
 - Ex: Managers would then compare their own revenue-to-employee ratio to get an idea of where they stood relative
8. Why is determining the priority of objectives important?
 - Not all objectives are of equal importance or value
 - Furthermore, some objectives might be important now and less important later

Intro To Business Sample Questions Final:

Introduction to Management Accounting Peter Scott, 2018 Peter Scott's Introduction to Management Accounting provides a thorough but accessible and engaging introduction to the subject for first year students. This highly practical textbook uses a multitude of worked and real life examples, supportive learning features, crystal clear explanations and extensive online resources all fully integrated with the book to guide students towards a confident understanding of the fundamentals of management accounting. Scott's lively writing style sets the numerical content within an easy to follow narrative and the real life relevance of each tool or technique is explained at every turn. All key areas of first year management accounting courses are covered to provide a solid foundation for more advanced modules. The book's online resources include a wealth of materials which can be downloaded into a university's local VLE. The student resources include Interactive Multiple Choice Questions for revising key topics, Numerical exercises for practising the calculation of accounting information from given sets of data, Go back over this again features containing a mix of further examples, written exercises, true or false questions and annotated accounting information to help consolidate learning and revise or revisit concepts, Show me how to do it videos that provide practical demonstrations of dealing with more complex accounting tasks, Web links for primary source material and articles through which readers can learn more about the companies and organizations discussed in the book. Lecturer resources include PowerPoint slides, examples and solutions and hundreds of ready to use multiple choice questions all arranged by chapter. Lecturers can choose to make the online materials available to their students via Dashboard, a learning and assessment tool which provides sophisticated analytics for student achievement and engagement with the resources, also facilitating discussions and course updates.
